Application Deadline: Completed application forms must be submitted to the Cache County Development Services Office forty-five (45) calendar days before an event is scheduled to take place. This allows sufficient time for evaluation of the application. Late applications shall be denied unless the applicant demonstrates that compliance with the 45 day deadline was impractical or impossible due to the nature of the event. A special event permit application may be approved and a permit issued to the applicant by the Director upon approval by all the agencies specified in Section 8.40.40.

Authority: Cache County has no authority to approve permits for events other than in the unincorporated area of Cache County. Permits issued by Cache County apply only to the unincorporated area of the county, and if an event crosses into a municipality within Cache County or across the county line, applicants should determine if a permit is necessary in the other jurisdiction.

Right to Deny: Cache County reserves the right to deny permit applications for proposed special events which may pose, or have posed a significant danger or threat to the public health, welfare or safety, or which may result in unreasonable inconvenience or cost to the public. In the event the application is denied, the applicant may appeal to the Cache County Executive.

Logan Peak Trail Run Medical Plan

There will be two full service aid stations that each runner will access twice. These aid stations will be stocked with water, food, electrolytes, and basic first aid equipment. We expect to have at least one experienced ultrarunner at each location who will be familiar with typical problems (dehydration, hyponatremia, heat stroke) encountered by distance runners.

In addition, we will have a medical director (TBD) located at the start/finish area or accessible by cell phone. The medical director will be available to consult in the event of any kind of backcountry emergency.

There should be helicopter access near Logan Peak, in the open area east of the Warming Hut (0.7 mile South of Aid Station (2/3) and potentially on the pass (mile 22 on the map) north of Dry Canyon Aid Station (1/4). In addition we expect to have vehicles on the upper forest service road east of the Logan Peak Turnoff Aid Station (2/3).
