1. Best Management Practices

1.1 What perimeter controls will be used to prevent sediment from leaving the site?

- BMP(s):** Silt Fence Berms Vegetative Buffer
 Cut-Back-Curb Weighted Wattles Staked straw Wattles (Fiber Rolls)
 Other:

1.2 What track out control will be used to prevent dirt from being tracked on streets as vehicles leave the site?

- BMP(s):** Track Out Pad Cobble Gravel
 Rumble Strips Wash Down Pad Restricted Site Access
 Other:

1.3 Does the project include installation of concrete, masonry, stucco, and paint (water based) work in this project? Yes No

Wash water must be contained, the solids dried, and disposed of at a landfill.

- BMP(s):** Lined Depression Steel Dumpster Other:

1.4 How will solid waste be dealt with on the site?

Light trash in uncovered dumpsters can blow out and scatter with wind and rain may fall on uncovered leachable material in the dumpster and leak out the bottom causing pollutants to escape.

- BMP(s):** Bag Lightweight Trash Leak Proof Dumpsters Receptacles with Lids
 Other:

1.5 How will sanitary waste be handled on the site?

- BMP(s):** Portable Toilet(s) (*must be staked down on dirt surface & 10' from curb*)
 Onsite or Adjacent Indoor Bathrooms
 Other:

1.6 How will you minimize the discharge of pollutants from spills and leaks?

- BMP(s):** Use of drip pans Spill response plan. Offsite fueling, and maintenance
 Spill kit Other:

1.7 Will curb ramps be used at the site? Yes No

If curb ramps are used it must be done with material [not dirt] that will not wash away in storm water.

- BMP(s):** Crushed Rock Wood/Steel Ramps Other:

1.8 Will there be a need to store construction materials on site? Yes No

Minimize the exposure of materials with a pollution risk (certain building and landscaping materials, fertilizers, pesticides, herbicides, detergents).

- BMP(s):** Stored off-site Secondary Containment Covering Erodible or Liquid Materials
 Strategic Storage and Staging Enclose them in a weather proof shed.
 Other:

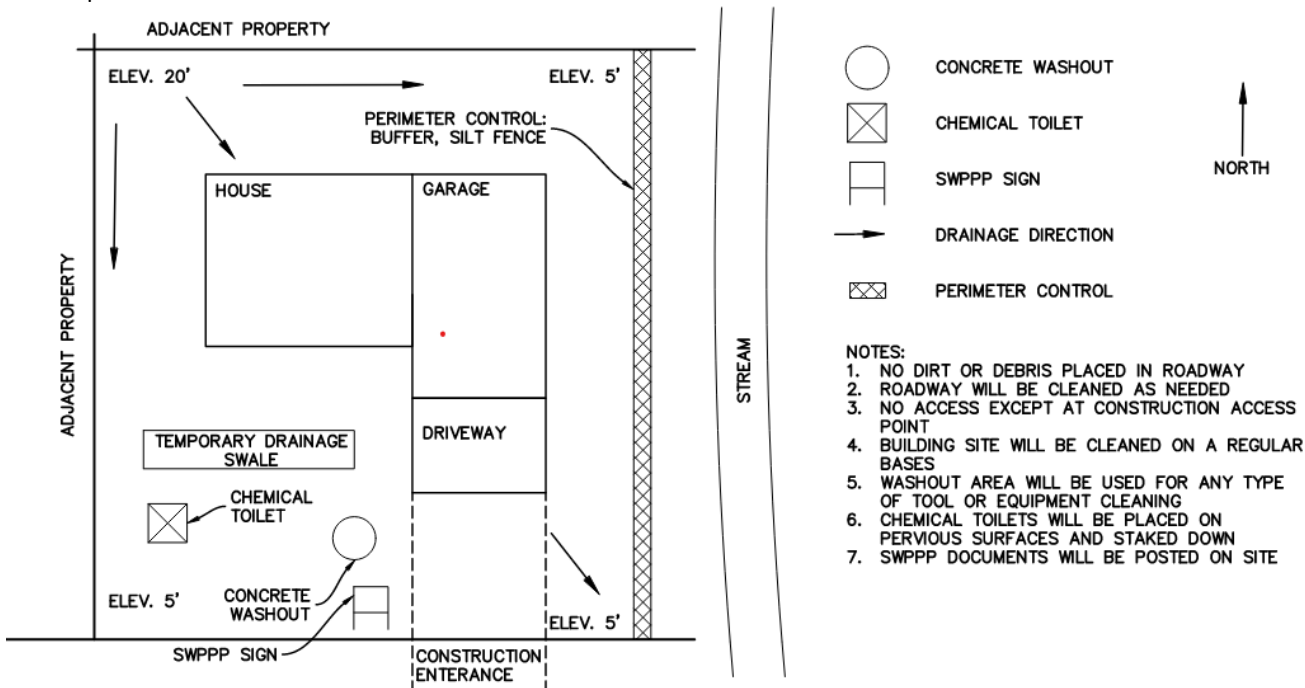

Cache County Erosion Control Form

2. Site Plan

On a blank page (or include a page from the architectural drawings that show site layout and dimensions), please draw a site plan showing the layout of the site including locations of:

1. Boundaries of project/property
2. Boundaries of disturbance (including areas outside of property boundaries)
3. Show slopes on site (if there are steep areas show steep areas)
4. Location of structures/facilities
5. Locations of:
 - a. Stockpiles for materials and soils
 - b. Construction supplies
 - c. Portable toilets
 - d. Garbage/trash containers
 - e. Egress points/track out pads
 - f. Concrete washouts pits or c containers
6. Water bodies, wetlands, natural vegetative buffers
7. Placement of all BMPs, perimeter, erosion control, sediment control, inlet protection, etc.
8. Storm water inlets and storm water discharge points (where storm water drains off the site)
9. Areas that will be temporarily or permanently stabilized on the site
10. Areas where disturbances will be delayed to minimize total exposed surface at one time.

Example Site Plan

3. Certification and Notification

I hereby certify that I have read and examined this application and know the same to be true and correct. All provisions of laws and ordinances governing this type of work shall be complied with, whether specified herein or not, the granting of this permit does not presume to give authority to violate or cancel the provisions of any other state or local law regulating construction or the performance of construction.
