2024 AWARDS

CRIMINAL DIVISION

Lifesaving Award

Deputy Robert Price and Curtis Cazier

The Lifesaving Ribbon is awarded to an employee whose swift actions have directly saved a life. Without their intervention, another person's death—whether on or off duty—would likely have occurred.

On December 11, 2023, Curtis Cazier, an athletic trainer at Sky View High School, was alerted that a 16-year-old male student in the weight room was breathing irregularly and unresponsive. Mr. Cazier quickly responded to the scene, while Deputy Price, finishing his shift, heard the emergency call and rushed to help.

Upon arrival, Deputy Price immediately began CPR, and Mr. Cazier swiftly retrieved an AED. Together, they delivered a shock using the AED and continued CPR until the student regained consciousness.

Thanks to the quick actions of Deputy Price and Mr. Cazier, the young man made a full recovery. It is an honor to present the Lifesaving Letter and award to Mr. Curtis Cazier and Deputy Robert Price.

Lifesaving Award

Sgt. Randi Jo Edvalson

The Lifesaving Ribbon is awarded to an employee whose swift actions have directly saved a life. Without their intervention, another person's death—whether on or off duty—would likely have occurred.

On September 23, 2023, Sergeant Randi Jo Edvalson conducted a welfare check on an inmate in the intake restroom. When she asked how he was doing, he did not respond. Hearing abnormal breathing sounds, she looked through the sliding window and saw him slumped against the wall with something tied around his neck.

Acting quickly, Sgt. Edvalson called for assistance, opened the door, and removed the material around his neck. She placed him in the recovery position and recognized he was unresponsive and breathing abnormally. Sensing a possible narcotics overdose, the deputies quickly requested and administered Narcan.

Thanks to Sergeant Randi Jo Edvalson's decisive actions, the inmate made a full recovery. It is with great honor that we present her with the Lifesaving Award.

As SERT Commander, Sgt. Moser demonstrated a deep understanding of training opportunities, deputy skills, inmate behavior, and necessary tactical tools. Under her leadership, the SERT team effectively handled numerous difficult inmate situations with minimal force, restoring harmony within the facility.

ALCOHOL COMPLIANCE CHECKS

The Cache County Sheriff's Office partners with the Bear River Health Department to conduct alcohol compliance checks through the EASY alcohol program, funded by the State of Utah. These checks are conducted quarterly to prevent alcohol sales to underage individuals.

How Compliance Checks Work

During these checks, an individual at least 18 years old attempts to purchase alcohol from a retail store. The buyer must be honest and follow the rules established by the State of Utah. If a sale occurs, the clerk may be cited or referred to court, and the state may impose administrative actions on the store, including fines or license suspension.

Compliance Results

In 2024, approximately 59 stores were checked three times each. Of 59 attempted underage purchases, only two were successful, resulting in a 97% compliance rate among Cache Valley retailers.

SCHOOL RESOURCE

The **School Resource Unit** consists of 11 deputies and two sergeants. These deputies are assigned to collaborate with staff and students at the high schools (Sky View, Mountain Crest, Ridgeline, Green Canyon, and Cache High) middle schools (South Cache, North Cache, and Spring Creek), and elementary schools (Spring Creek, and North and South Elementary Schools). The school resource deputies investigate crimes that occur in the schools and work alongside school administrators on safety issues related to the schools. Their presence also provides a level of security within these educational environments. Furthermore, the school resource deputies partner with the Bear River Health Department to conduct alcohol compliance checks.

SCHOOL SECURITY

The position of Cache County **School Security Chief** was established by state law to enhance the safety and security of local school districts. This role serves as a vital link, coordinating resources and services between the Cache County Sheriff's Office, local law enforcement agencies, and schools in the area.

Our responsibilities, as outlined in Utah state law (specifically Utah Code § 53-22-103), include the following:

- **Coordination and Communication:** We collaborate with school safety and security specialists, school directors, and local law enforcement to ensure effective communication and a unified approach to school safety.
- **Site Assessments and Improvements:** We administer and coordinate school safety needs assessments and review the results to recommend and implement improvements to school facilities, policies, and procedures.
- **Training and Programs:** We provide necessary training in collaboration with police chiefs and the state security chief, including the School Guardian Program. We assess and certify individuals to ensure they are prepared to perform their duties as school safety personnel.

In our efforts to create safer school environments, we focus on prevention through two key areas:

- **Behavioral Threat Assessment Management (BTAM):** This multidisciplinary, evidence-based process is designed to identify, assess, and manage potential threats of violence. We work with school staff and mental health professionals to identify concerning behaviors, gather information, and develop intervention strategies that connect individuals with the support and resources they need, ultimately preventing violence before it occurs.
- **Physical Security:** We apply recognized principles of physical security—such as deterrence, detection, delay, assessment, and response—to strengthen our school facilities. This includes implementing measures like controlled access points, security cameras, and reinforced doors, all aimed at creating layered defenses and providing valuable time for a swift and effective response in an emergency.

Our goal is to work proactively to ensure the students, faculty, and staff are safe and secure within our schools.

INVESTIGATIONS UNIT

The detectives assigned to the **Investigations Unit** are responsible for investigating major crimes in the county. This unit consists of one sergeant, seven detectives, and an administrative assistant. When a crime occurs, a patrol deputy responds, takes the initial report, and concludes the investigation if possible. If further follow-up is needed, the case can be referred to a detective.

We have detectives who specialize in "crimes against persons," which include assaults, robbery, child abuse, and sexual abuse. Additionally, there are detectives assigned to handle "property crimes," such as thefts, burglaries, and fraud.

Each detective is highly trained in their respective field and has completed hundreds of hours of training in areas such as child abuse, death scene investigation, and various forensic subjects.

One detective is specifically assigned to the Cache/Rich Drug Task Force. This detective collaborates with other officers to investigate narcotics violations in Cache and Rich counties. The task force addresses a variety of illegal drug offenses including drug possession, distribution, prescription drug offenses, and methamphetamine labs.

NATIONAL INCIDENT BASED REPORTING SYSTEM (NIBRS)

The National Incident Based Reporting System (NIBRS) was developed by the FBI in the 1980s to provide more comprehensive data for managing crime in our society. In a NIBRS system, computerized data systems are used to collect detailed information about the crimes that occur. This detailed information, stored in a law enforcement agency's records management system, allows for a more thorough analysis of criminal activity.

In Utah, the Incident Based Reporting System was implemented in 1991. As of January 2021, all agencies were required to submit data using the NIBRS format. The data collected by the Utah repository is forwarded to the FBI's NIBRS repository, where it helps to illustrate criminal activity nationwide.

It is important to note that NIBRS data is not directly comparable to the data from the summary reports, which were retired at the end of 2020. NIBRS reports all offenses that occur in a criminal episode, not just the most serious offense. NIBRS data includes three main categories:

1. **Crimes against persons**

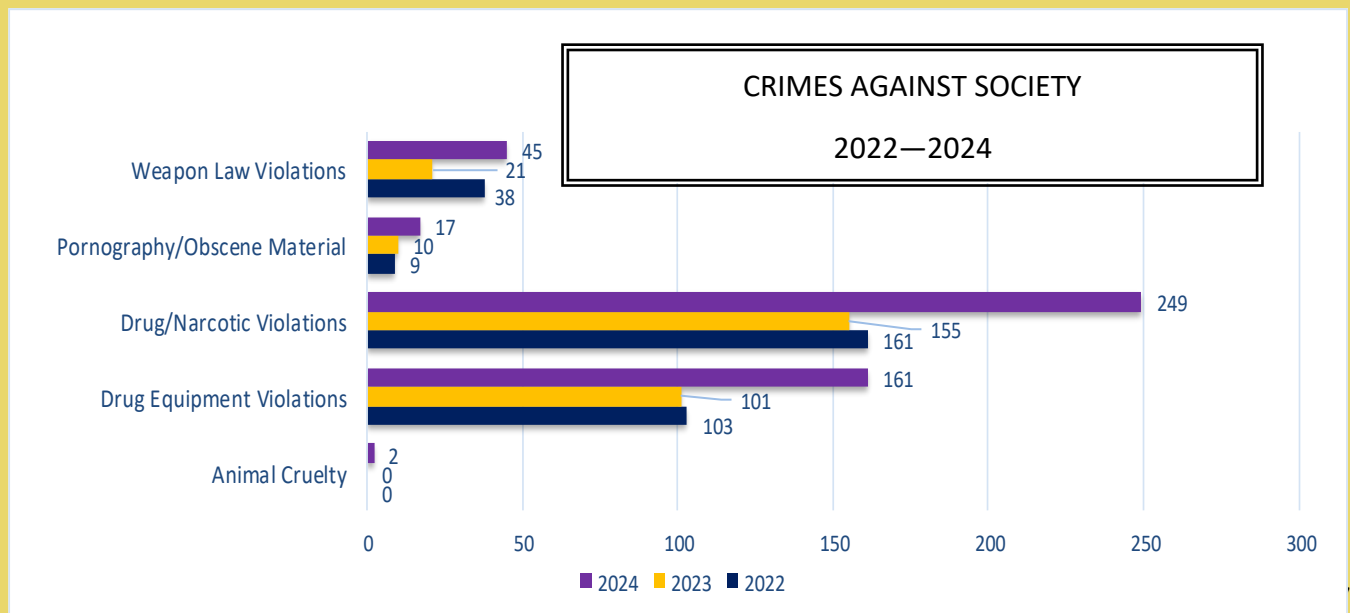

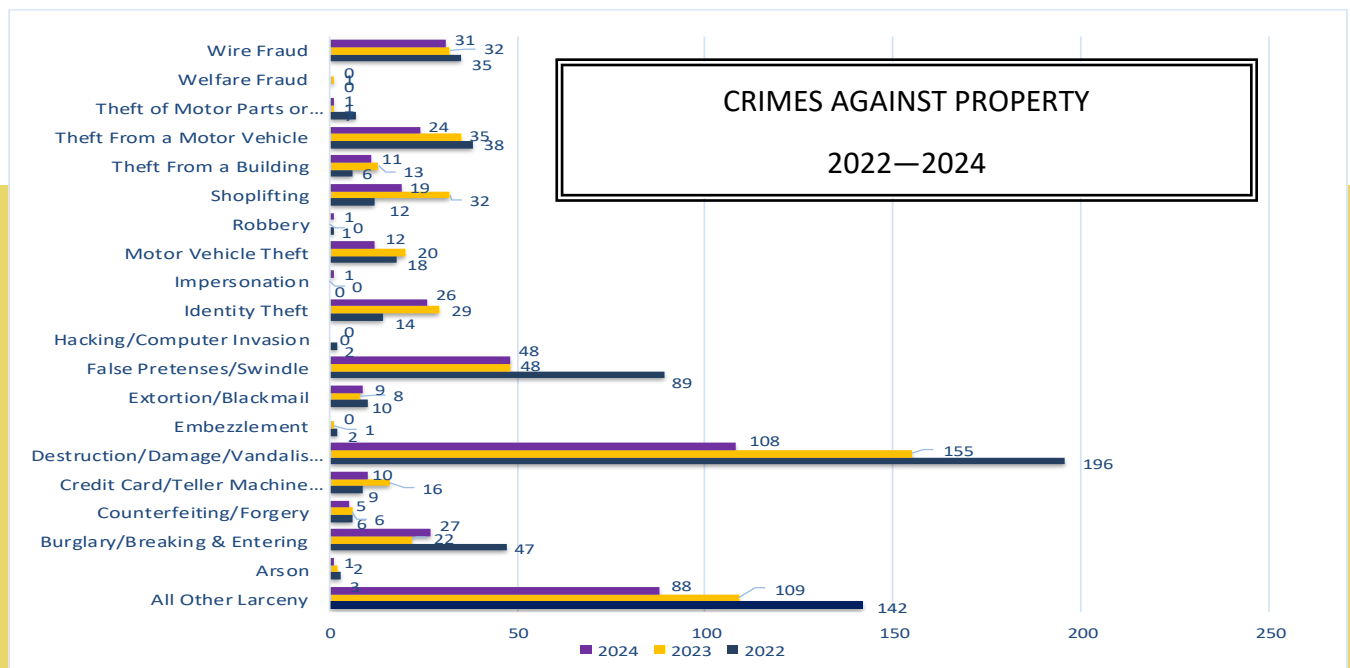

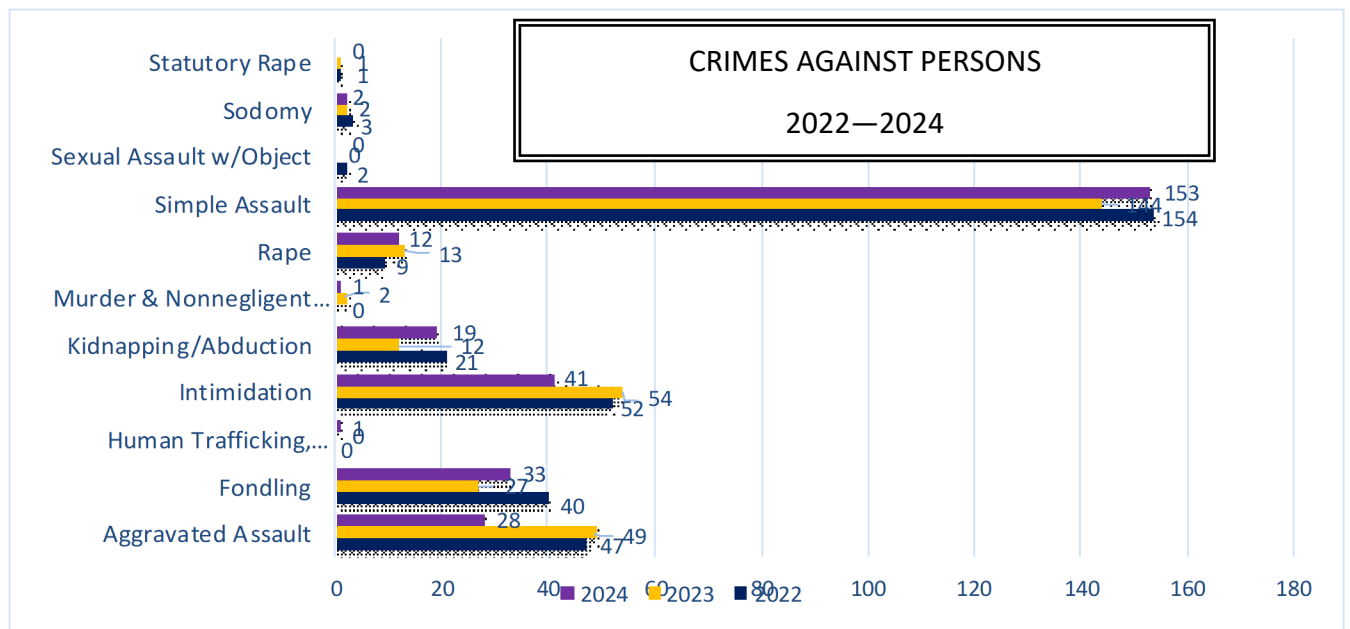

These are offenses in which the victims are always individuals. In this category, one offense is counted per victim.

2. **Crimes against property**

These offenses involve obtaining something of value, such as money or property. Examples include robbery, bribery, and burglary. In this category, one offense is counted for each distinct act, except for motor vehicle theft, where one offense is counted for each stolen vehicle.

3. **Crimes against society**

These offenses represent society's prohibition against engaging in certain activities. They do not involve an injured party and are not committed against property. This category includes drug/narcotic offenses, gambling offenses, pornography/obscene material offenses, and prostitution offenses.

CACHE/RICH DRUG TASK FORCE

The Cache/Rich Drug Task Force is dedicated to investigating drug-related crimes in Cache and Rich Counties. This Task Force comprises five full-time law enforcement officers: three detectives from the Logan City Police Department, one detective from the Cache County Sheriff's Office, and a sergeant from the Logan City Police Department who supervises the team. Additionally, the task force collaborates closely with a special agent from Homeland Security Investigations (HSI), who has been assigned to the Cache County area.

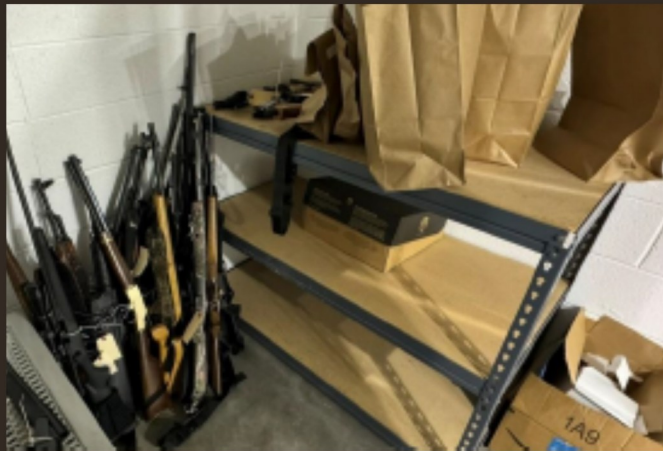

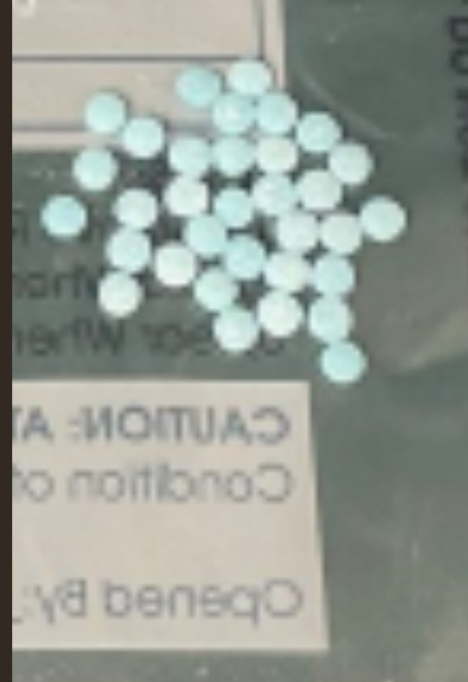

The Cache/Rich Drug Task Force also works in partnership with various local agencies, including the Rich County Sheriff's Office, Smithfield Police Department, North Park Police Department, Utah State University Police Department, Cache County Attorney's Office, and Adult Probation and Parole. They coordinate with the Division of Child and Family Services and other local, state, and federal agencies.

In 2024, the task force investigated 234 incidents, executed 41 search warrants, and conducted 25 drug education and prevention presentations. They made a total of 127 arrests, with primary offenses including methamphetamine, heroin, marijuana, firearms violations, and the illegal use of controlled prescription medications, among other charges.

CASE HIGHLIGHTS

- Agent Neibert joined the task force in August 2024 and received information about a potential methamphetamine distribution operation. This information was discovered on the phone of a stalking suspect. Following his investigation, he successfully obtained a search warrant for the suspect's residence in Providence. During the execution of the warrant, authorities seized methamphetamine, marijuana products, and a firearm. An adult male and an adult female were arrested on possession charges, with the male facing additional charges for possession of a firearm by a restricted person.
- In addition to the other cases he handled this quarter, Agent Neibert assisted the Cache County Jail with three separate investigations involving inmates in possession of illicit narcotics. As a result of these investigations, seven individuals were arrested for drug possession within the correctional facility.
- Deputy Wallentine with the Cache County Sheriff's Office recently worked on an investigation that led to an arrest for drug distribution. While evaluating phone records, he discovered information about other individuals involved in the distribution network. The Drug Task Force followed up on this information and found that the suspect frequently traveled to California to purchase marijuana products, which he then brought back to Cache Valley for distribution.

A warrant was served at the suspect's home, resulting in the seizure of marijuana products, firearms, over \$4,500 in cash, and the suspect's BMW, all of which were tied to drug distribution. Two adults were arrested on charges of distribution, possession, and firearms-related offenses.

PATROL DIVISION

CACHE COUNTY SHERIFF'S OFFICE

The Cache County Sheriff's Office partners with 14 communities, the U.S. Forest Service, and the Cache Valley Transit District. The Patrol Division serves a broad population by responding to emergencies, promoting highway safety, and supporting community well-being. Through these partnerships and efficient resource management, the Sheriff's Office upholds peace, public safety, and law enforcement in Cache County.

The Patrol Division includes the following units:

- **STAR DEPUTY**

The STAR (Sheriff's Town and Area Representative) Deputy Program connects citizens directly with the Sheriff's Office. Each city in the county has an assigned STAR Deputy who attends monthly city council meetings and supports initiatives such as Neighborhood Watch, National Night Out Against Crime, and other city priorities. Citizens are encouraged to contact their STAR Deputy with questions or concerns.

- **MOTORS**

With their inconspicuous presence and maneuverability, motor units are effective tools for general traffic enforcement. When specific traffic issues are reported by citizens or other deputies, motor deputies initiate targeted enforcement to address them. Motors are also used during parades, city celebrations and events, National Nights Out, and military and funeral escorts.

- **K9S**

The Cache County K9 Division includes two K9s and their handlers. They are responsible for tracking suspects, drug detection, and general patrol. The unit also engages in community outreach by visiting schools, fairs, and public events to demonstrate their work.

- **SWAT**

The Cache County Sheriff's Office SWAT (Special Weapons and Tactics) team consists of highly trained deputies who respond to high-risk situations. They use specialized tactics, equipment, and skills to manage hostage rescues, armed and barricaded suspects, high-risk warrant entries, and other critical incidents.

- **ANIMAL CONTROL**

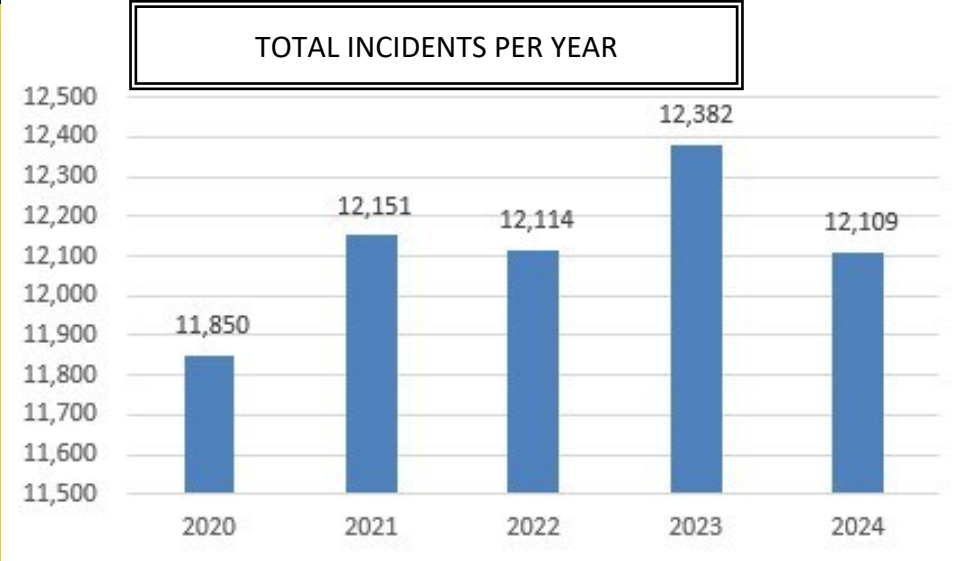

The Animal Control Unit includes one sergeant and three full-time civilian animal control officers. They respond to calls about stray animals and investigate cases of abuse, neglect, or dangerous animals. The team also collaborates with state livestock officers to address complaints about livestock on public highways or private property, as well as livestock neglect and abuse.

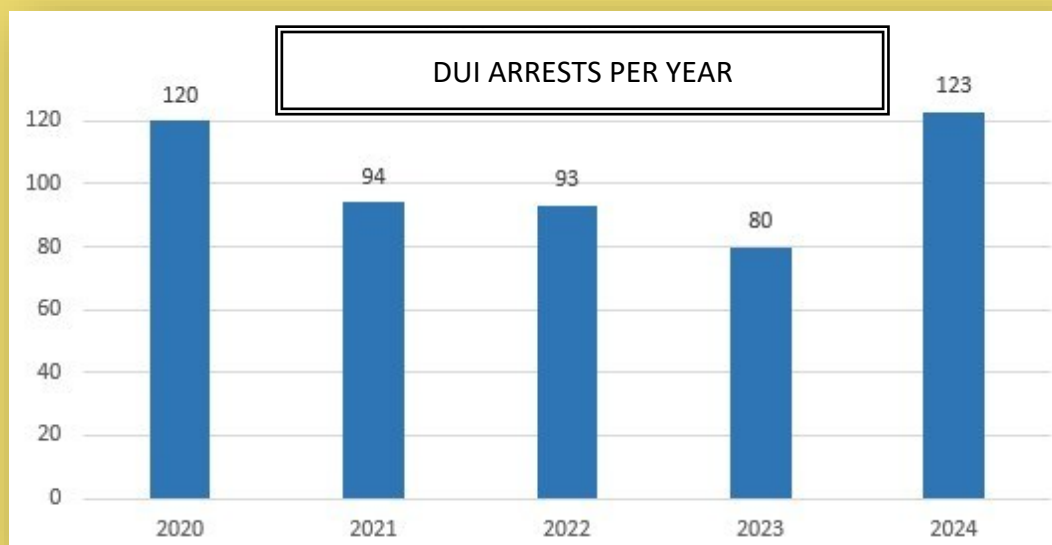

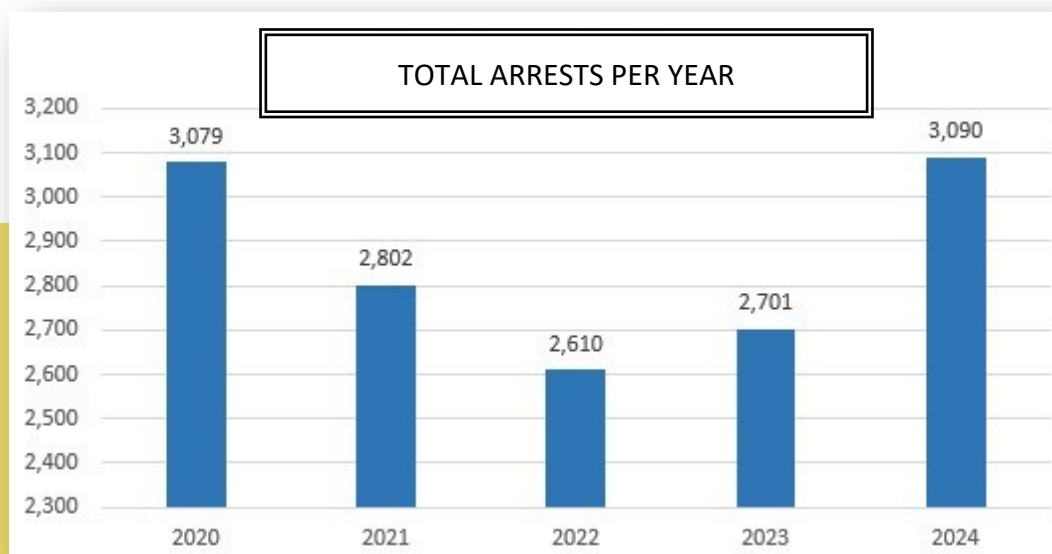

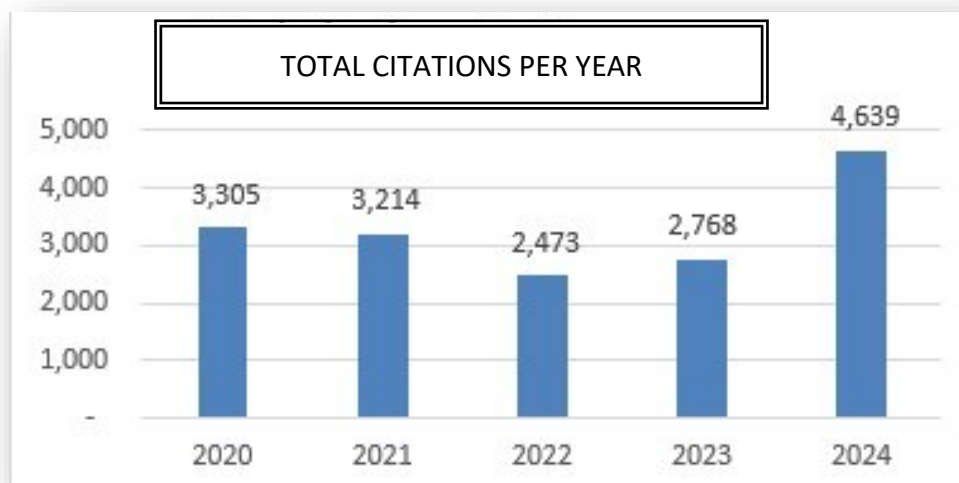

PATROL UNIT

The peace officers in the **Patrol Division** are dedicated to maintaining public safety and making lawful arrests. They do this by gathering intelligence on criminal activities, conducting investigations, and arresting and prosecuting offenders. The Patrol unit also protects the lives and freedoms of Cache County residents by responding to public emergencies, enforcing traffic laws, implementing crime prevention programs, and resolving civil disputes.

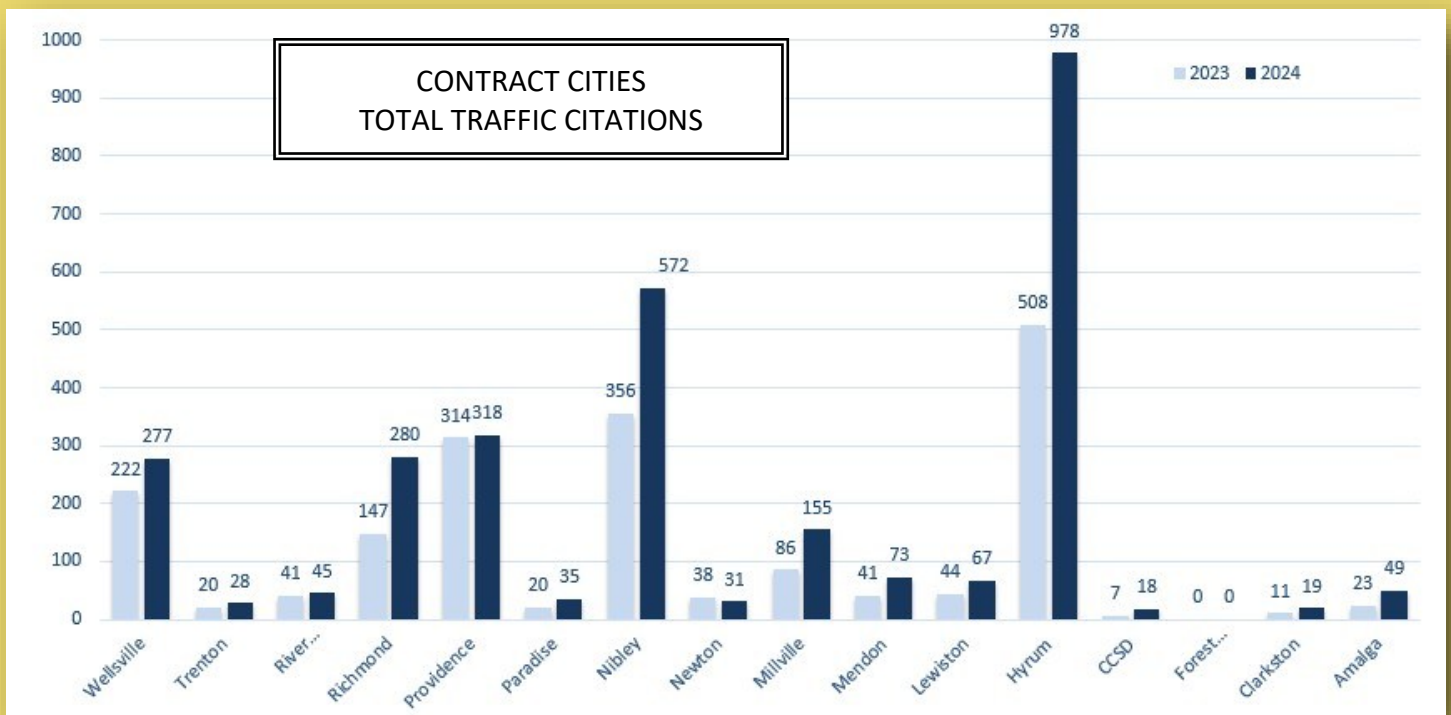

In addition to their law enforcement duties, patrol deputies serve as representatives of the Sheriff within the communities they serve. The Sheriff's Town and Area Representative (STAR) Deputy program was established to improve communication and services between the Sheriff's Office and the individual communities. Each deputy is assigned to a specific city or town and works to address local issues.

The Patrol Division includes 34 deputies and four sergeants. This year, the Sheriff's Office received 12,109 calls for service, averaging 198 incidents per deputy across patrol, investigations, animal control, and school resource divisions, totaling 61 deputies.

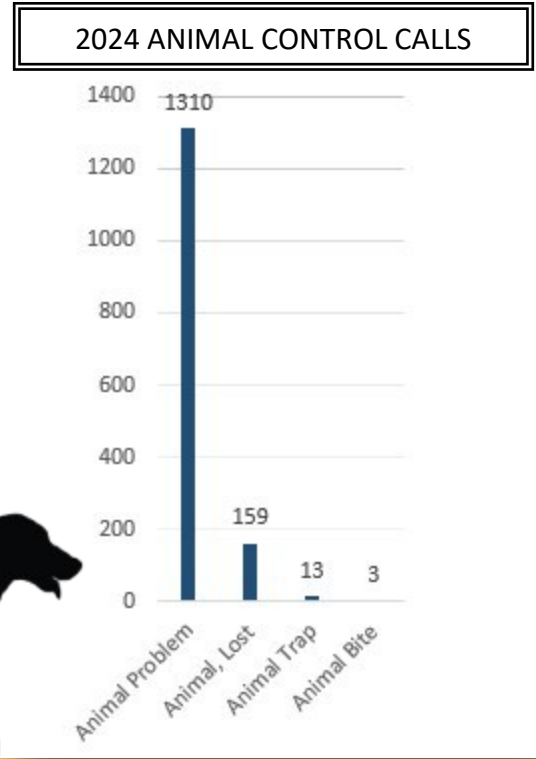

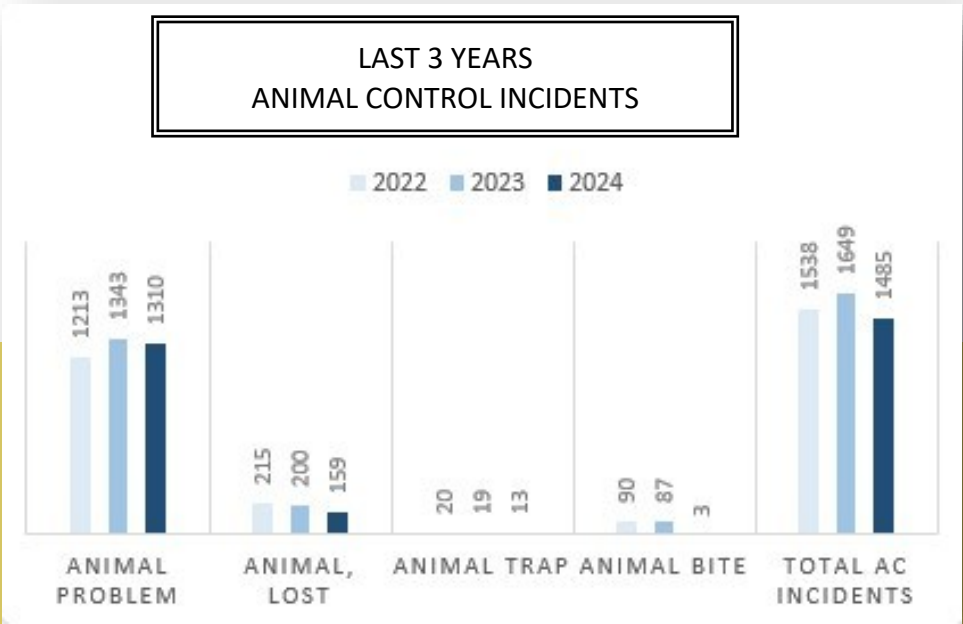

CONTRACT CITIES

ANIMAL CONTROL

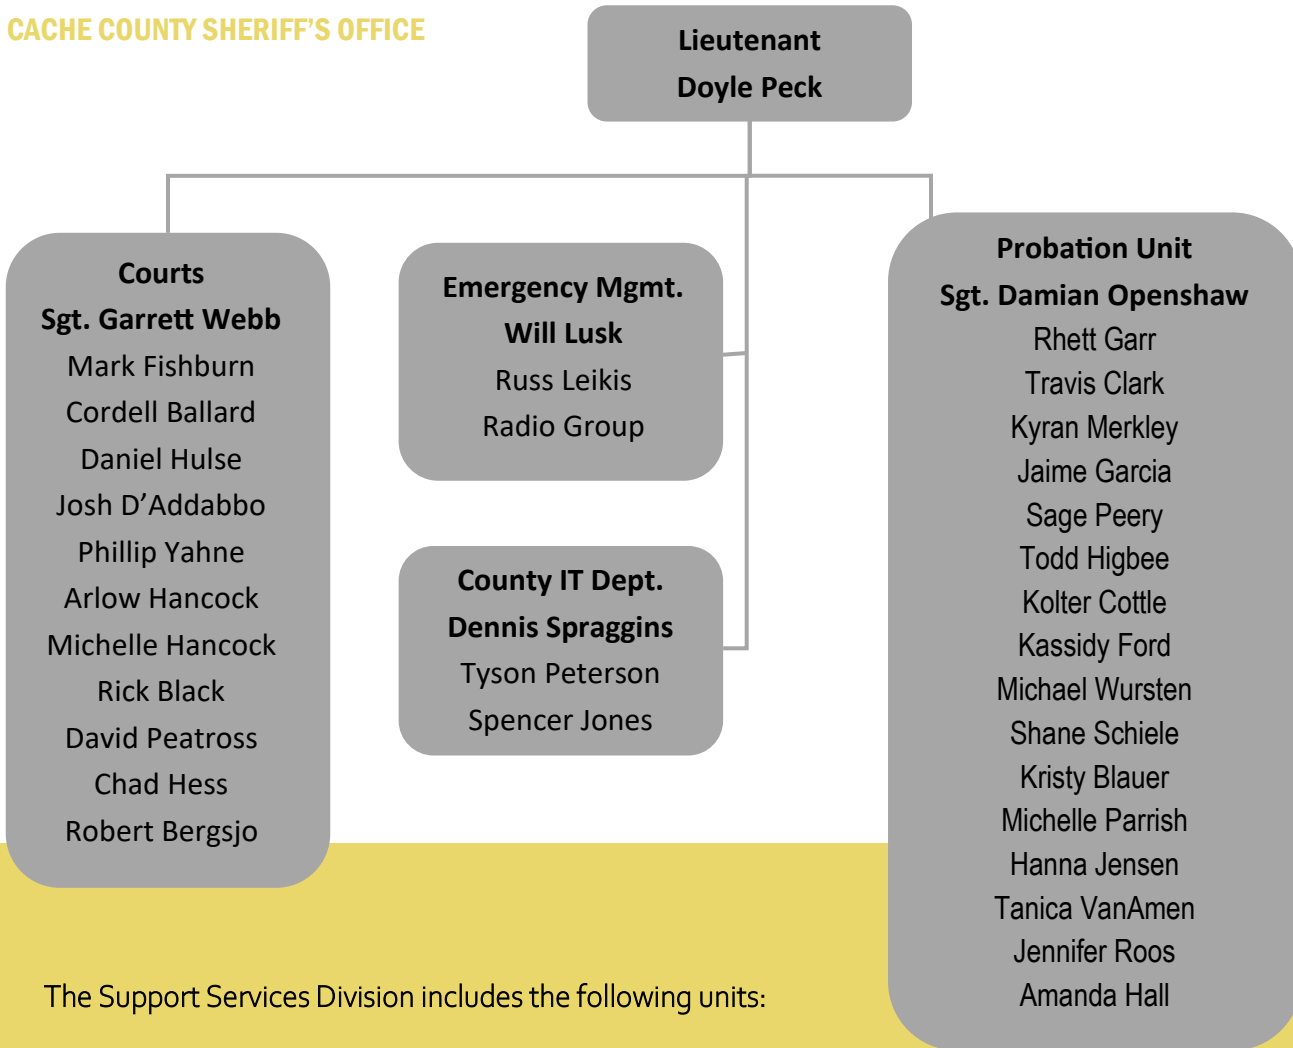

Animal Control is part of the Criminal Division and is managed by the administrative sergeant. The unit has three full-time civilian employees who handle animal-related calls and patrol for animal issues. In 2024, they responded to 1,485 incidents in Cache County.

Cities that contract for this service get detailed records of ongoing problems and nuisances, which might be missed with only on-call animal services. Having a law enforcement employee involved also builds strong relationships with city prosecutors and provides access to all the Sheriff's Office resources, ensuring animals are handled safely and humanely.

SUPPORT SERVICES DIVISION

CACHE COUNTY SHERIFF'S OFFICE

The Support Services Division includes the following units:

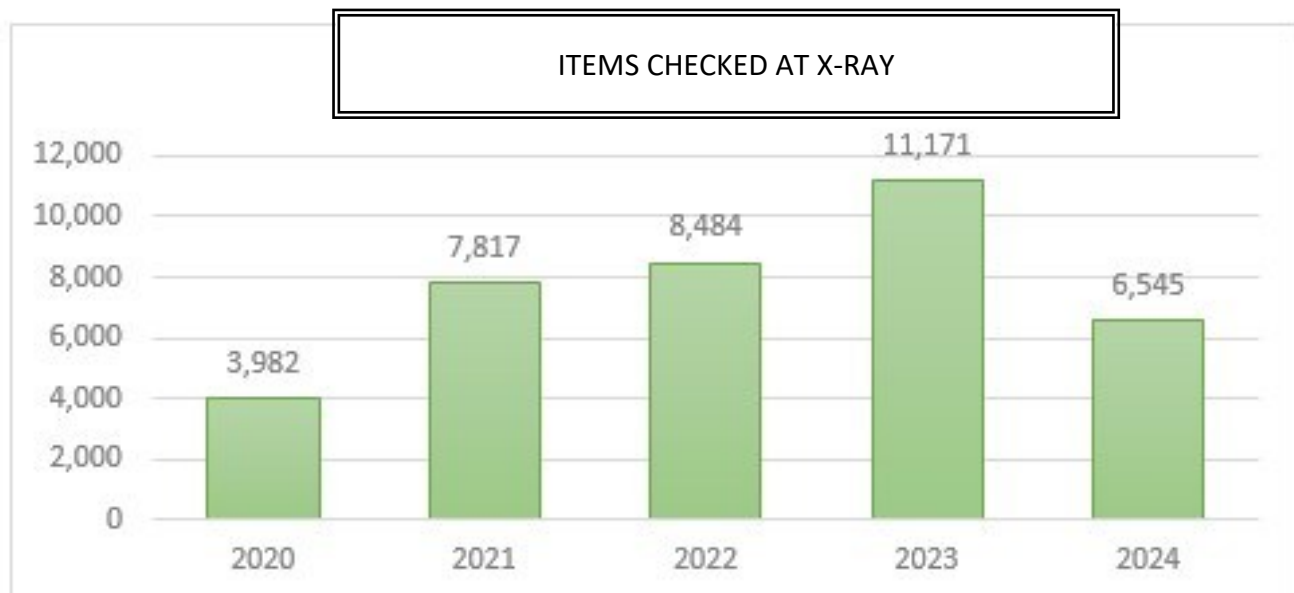

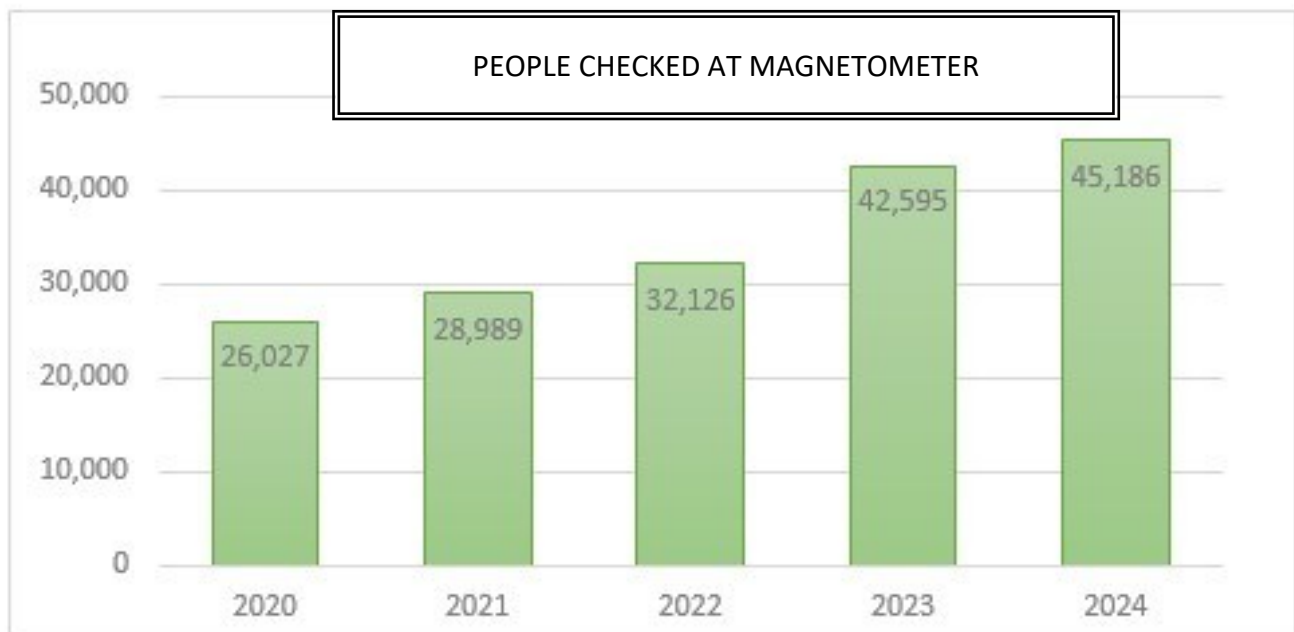

- **COURT SECURITY**
Court Security is responsible for providing general security at the First District Court complex and offering bailiff services in the courtrooms.
- **PROBATION UNIT**
The agents in the Probation Unit supervise adult offenders in the community through a structured program that ensures community protection.
- **EMERGENCY MANAGEMENT**
Emergency Management oversees the County Emergency Operations Center (EOC) and coordinates disaster response efforts throughout the county.
- **IT DEPARTMENT**
The Information Technology Department establishes, monitors, and maintains information technology systems and services.

COURT SECURITY

The Sheriff's Office offers two key services to the District Court, Juvenile Court, and certain justice courts within the First Judicial District.

- First, deputy sheriffs serve as bailiffs, ensuring the safety of judges and court staff and maintaining order in the courtroom.
- Second, deputy sheriffs provide security for the court complex through their uniformed presence in and around the area. Additional measures include using handheld and stationary metal detectors, gathering intelligence, managing situations that threaten court security, and arresting individuals who violate the law in or near the complex.

Deputy sheriffs assigned to the courts maintain an excellent working relationship with judges, court clerks, attorneys, and the public.

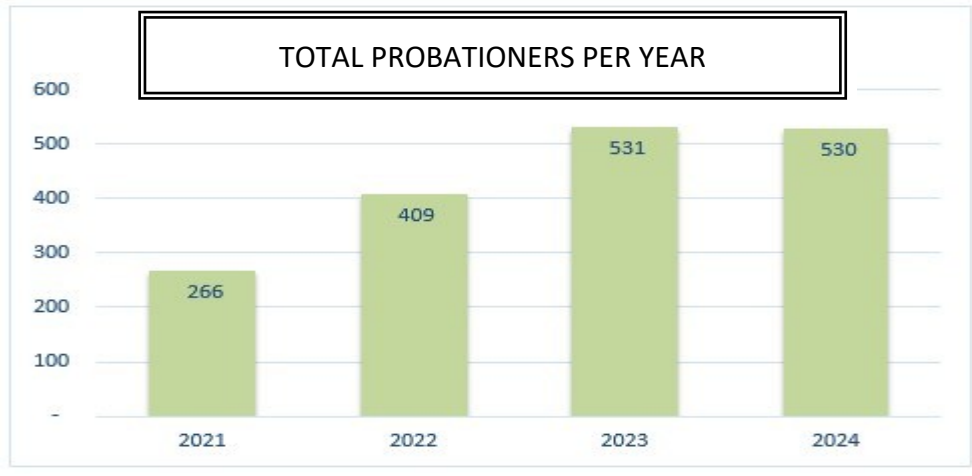

PROBATION UNIT

Established in July 2020, the Cache County Sheriff's Office Probation Unit oversees two distinct programs: pretrial supervision and probation. The county probation system addresses a gap between Adult Probation and Parole and private probation companies, specifically focusing on medium to high-risk misdemeanor adult offenders.

The Pretrial Supervision Program is designed for adults who have been charged with a criminal offense but have not yet undergone the court process to determine their guilt. Instead of remaining in jail during this time, these individuals are released into the community and placed under the supervision of the Probation Unit.

Probation is intended for adult offenders who have been found guilty of a criminal offense. For many, probation is an alternative to serving jail time. While on probation, offenders must comply with a set of conditions that hold them accountable and offer treatment options, aiming to facilitate positive changes in their lives.

Additionally, the Probation Unit is responsible for preparing presentence investigations, which provide the court with information to aid in fair sentencing. These investigations include reviewing criminal histories, conducting validated needs and risk assessments on the offender, interviewing the offenders, gathering victim impact statements, and collecting other relevant information to assist the court in its sentencing decisions.

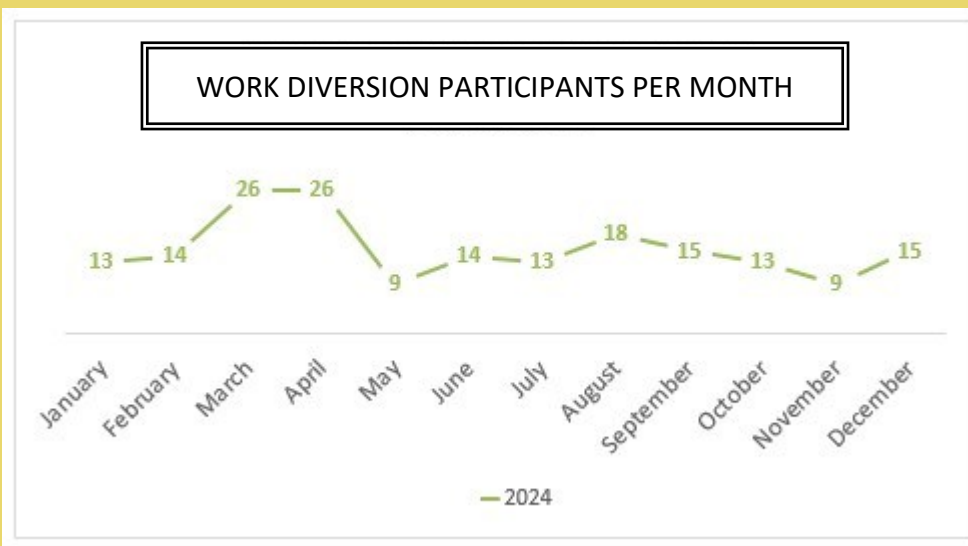

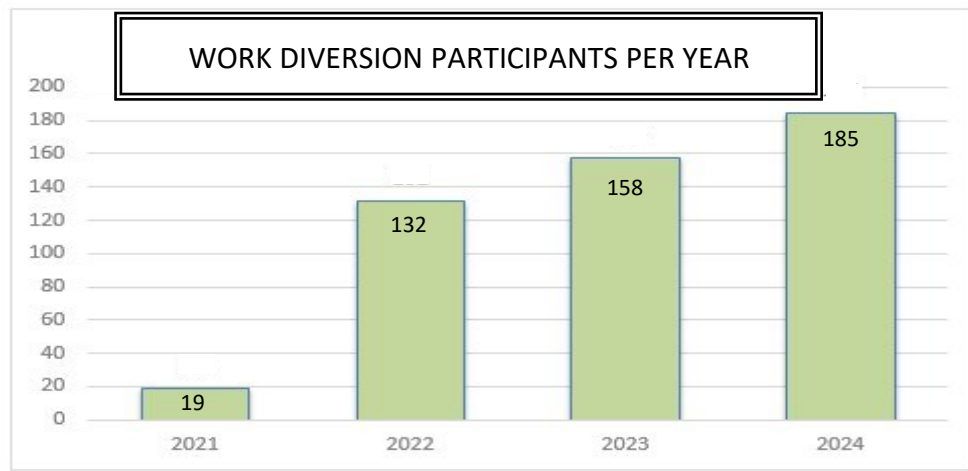

Work Diversion Program

The Work Diversion program offers opportunities for individuals sentenced to community service. This program is utilized by several local courts, including the First District Court, Logan Municipal Court, and other justice courts. It provides numerous benefits to the court system, the community, and the individuals involved.

In 2023, a total of 1,264 hours of community service were allocated to 15 different organizations in Cache Valley. These service hours were completed by 158 individuals, who contributed to tasks that would have otherwise required funding from local taxpayers. The Work Diversion program specifically focuses on assisting non-profit and government agencies, maximizing the advantages for local communities.

Additionally, this program serves as an alternative form of punishment, rather than incarceration. Many participants are young adults who have committed minor offenses, ranging from traffic violations to alcohol-related infractions. Completing community service is often more beneficial for these individuals than spending time in jail. By participating in the Work Diversion program, they can contribute positively to the community, address their fines in a manageable way, and avoid the negative influences that often accompany incarceration.

EMERGENCY OPERATIONS CENTER

The Cache County Emergency Operations Center (EOC) is located at the Sheriff's Office Complex and is managed by the Cache County Office of Emergency Management. The EOC serves as the central hub for directing and controlling county government activities and for coordinating emergency response and recovery efforts during emergencies or disasters.

Examples of situations that may require centralized direction and control through the EOC include floods, earthquakes, severe storms, landslides, hazardous material spills, and search and rescue operations. This centralized coordination is made possible through the collaboration of emergency responders, staff, volunteer agencies, non-governmental organizations, and elected and appointed officials assigned to support and coordinate emergency activities within the EOC. This coordination helps to ensure that all tasks are completed efficiently, with minimal duplication, and the highest likelihood of success.

Day-to-day operations at the EOC include maintaining situational awareness and disseminating information. The EOC is well-equipped for this purpose, featuring numerous phone lines and various communication capabilities. These operations may also involve managing Amber Alerts. When an Amber Alert is issued in the County, the EOC acts as the call center for receiving tips and gathering information related to the alert, and it serves as the primary source for disseminating Amber Alert information to the public.

The EOC is equipped with emergency supplies, communication equipment, computer-based reference materials, and activity logs. Additionally, it has backup power and lighting, along with other necessary tools to function effectively during emergency or disaster situations. The EOC is also set up to serve as an alternate Emergency 911 Dispatch Center.

To ensure that all response and recovery tasks are executed with maximum efficiency, the EOC facilitates a county-wide training and exercise program. Over the past year, training has been provided to various emergency responders, staff, volunteers, faith-based groups, and elected and appointed officials.
