Cache County Council

## Overview

The Utah Division of Arts & Museums offers operational support funding to designated Local Arts Agencies to ensure the cultural, civic, educational, and economic benefits of the arts are accessible to communities throughout the state. The title “agency” may refer to a council, board, committee, or other organization.

## Local Arts Agency Definition

A Local Arts Agency (LAA) is the primary organization in a defined geographical area that supports and advances the arts for its community by engaging residents, identifying and addressing community needs, reflecting community demographics, contributing to the quality of life, building community identity, and supporting artists and arts organizations. A Local Arts Agency can be an agency of local government, a nonprofit organization, or a hybrid of the two.

## Qualifications

To be recognized as an official Local Arts Agency, the organization must be designated by the municipal/county government for the defined community they serve. The organization, whether a 501(c)(3) or under the umbrella of the governing body for the community, must also offer their community **at least four** of the following services: (please check all that apply)

10 **Planning Commission action**

11 Approval (5-yea; 0-nay; 1-abstain).

12 Public hearing held on March 6<sup>th</sup>, 2025

13 Conclusion: Based on the findings of fact noted [in the staff report], the Tanner and Nicole  
14 Godfrey Home rezone is hereby recommended for approval to the County Council as follows:

- 15 1. The subject property is consistent with the purpose of the Rural 2 (RU2) Zone:
  - 16 a. "To allow for residential development in a moderately dense pattern that can  
17 allow for rural subdivisions, and to allow for clustering plans larger than a single  
18 parcel. This type of development should be located and designed to not  
19 unreasonably impede adjacent agricultural uses, nor to unreasonably conflict  
20 with the development standards of adjacent municipalities."
  - 21 b. "To implement the policies of Cache countywide comprehensive plan, including  
22 those regarding improved roadways, density based residential standards,  
23 clustering, moderate income housing and municipality standards."
  - 24 c. "This zone must be appropriately served by suitable public roads, have access to  
25 the necessary water and utilities, and have adequate provision of public  
26 services."
- 27 2. This rezone is consistent with the Logan City 2022 Annexation Policy Plan:
  - 28 a. The subject parcel falls within "Area C" of the Logan City 2022 Annexation Policy  
29 Plan. This area is targeted for future residential and commercial growth. Per the  
30 public comment provided by the Senior Planner for Logan City, Russ Holley, this  
31 parcel will be NR-4 or NR-6 and would likely have a density of 4-6 homes per  
32 acre.
- 33 3. This rezone is partially consistent with the Cache County General Plan:
  - 34 a. The subject parcel falls within the "Urban Expansion Overlay". This overlay  
35 promotes unified municipal growth that matched the municipal land use plan. In  
36 this case, the subject property falls within the Logan City annexation area and  
37 the proposed rezone aligns with the Logan City future land use plan for this area.

38 4. A subdivision, located inside of Logan City limits, that has a density of one home per  
39 0.20 acres is located 400 feet to the east of the subject parcel.

**B. Ordinance—§12.02.010, §17.02.060; §17.08.030 [E]**

5. As per §17.02.060, Establishment of Land Use Authority, the County Council is authorized to act as the Land Use Authority for this application.
6. The current County Land Use Ordinance does not specify appropriate locations for the Rural 2 (RU2) Zone but does contain general guidelines for its implementation. County Land Use Ordinance §17.08.030 [E] identifies the purpose of the Rural 2 (RU2) Zone and includes the following:
  - a. “To allow for residential development in a moderately dense pattern that can allow for rural subdivisions, and to allow for clustering plans larger than a single parcel. This type of development should be located and designed to not unreasonably impede adjacent agricultural uses, nor to unreasonably conflict with the development standards of adjacent municipalities.”
  - b. “To implement the policies of Cache countywide comprehensive plan, including those regarding improved roadways, density based residential standards, clustering, moderate income housing and municipality standards.”
  - c. “This zone must be appropriately served by suitable public roads, have access to the necessary water and utilities, and have adequate provision of public services.”
7. Chapter 4: Future Land Use Plan of the Cache County General Plan states:
  - a. “The use of land is one of the most important and fundamental values for landowners, residents, civic leaders, and elected officials. This determines, in large measure, the future of Cache County. The Future Land Use Map represents the County’s collective vision of our desired future. It conveys the patterns and priorities of economic development and community character, the locations of neighborhoods and industries, and the preservation of natural, agricultural, and rural landscapes.”
  - b. “The Future Land Use Plan is advisory and does not change the existing zoning of any property or the ability of landowners to continue existing legal uses consistent with the existing zoning or nonconforming uses. It serves as a starting point for conversations about regional initiatives and development proposals by illustrating how sometimes

- separate and uncoordinated activities can help or harm our desired future. The timing of future development will depend on a number of factors including choices made by individual landowners, aspirations of the community, and future availability of facilities and services.”
8. The future land use map (Attachment B) adopted as part of the Cache County General Plan identifies the area where the subject property is located as “Agriculture and Ranching.” *Cache County General Plan, Chapter 4, Page 26*. This section states:
    - a. Location: Private agriculture landscapes in the Cache Valley outside of municipalities.
    - b. Example Areas: Most of the valley.
    - c. Purpose and Character: Agricultural and rangeland uses on private lands under conservation easements (no public access) are expected to continue in the Valley. Separation from dense residential developments is advantageous. The agricultural landscape provides separation between adjacent municipalities and protects suitable soils.
    - d. Preferred Land Uses: Agriculture, ranching, rural residential uses at densities of less than one unit per 10 acres, Conservation Easements (CEs) and conserved public lands, Agritourism.
    - e. Secondary Land Uses: Industrial and Commercial uses directly supportive of agriculture (Processing, Packaging, Distribution), clustered subdivision developments, outdoor recreation, farm worker housing.
    - f. Discouraged Uses: Residential developments at densities of greater than one unit per 10 acres if not in a clustered subdivision development, commercial office, commercial retail, flex office/industrial, heavy industrial.
  9. The future land use map (Attachment B) adopted as part of the Cache County General Plan identifies the area where the subject property is located as “Urban Expansion Overlay.” *Cache County General Plan, Chapter 4, Page 29*. This section states:
    - a. Location: Adjacent to city/town limits within municipal annexation policy areas, where future development could be accommodated with urban-level services. As communities may provide additional information, these reference areas may be updated on the Future Land Use Map without an adopted amendment to reflect the probable expansion of services within a 10 to 20 year timeframe.
    - b. Example Areas: Unincorporated enclaves between or within cities.
    - c. Purpose and Character: To provide for unified municipal growth that aligns with the municipal land use plan in an approved annexation policy area with an approved County Intergovernmental Agreement. If developed, these areas would need to be annexed into the neighboring community which would facilitate service provision. The following criteria must be met for these areas
      - i. Accommodate 20-year growth projections
      - ii. Plan for urban-level densities, intensities
      - iii. Meet urban design standards
      - iv. Connect with water and sewer providers, and urban streets
      - v. Urban services provided by the County are minimized
    - d. Preferred Land Uses: Annexations within these areas should strive to accomplish the densities, intensities, and street patterns contained where urban-level infrastructure is available. Affordable housing options are also appropriate in this area.
    - e. Secondary Land Uses: Civic (meeting spaces), residential support uses (e.g. parks, medical, schools, fire and police stations).

f. Discouraged Uses: Uses that are not consistent with the municipal general plan or existing county zoning.

10. Consideration of impacts related to uses allowed within the Rural 2 (RU2) Zone will be addressed as part of each respective approval process required prior to site development activities.

**C. Access—16.04.040 [A], 16.04.080 [E], Road Manual**

11. §12.02.010 adopts the Manual of Roadway Design and Construction Standards (Road Manual) for roadway improvement requirements.

12. §16.02.010 Standards and Lot Size – All subdivisions must meet the minimum lot and development standards as outlined in each base zone of the Cache County Zoning Ordinance and within this title.

13. Table §17.10.040 Site Development Standards – Minimum lot frontage required in the Rural 2 (RU2) Zone is 90’.

14. §17.07.040 General Definitions – Lot/Parcel Frontage: that portion of a development site that abuts a public or private roadway. For the purposes of determining setback requirements on corner lots, all sides of a lot adjacent to a roadway shall be considered frontage

15. §16.04.040 [A] Roads – All roads must be designed and constructed in accordance with Title 12 of the County Code.

16. §12.02.010 Roadway Standards – Requirements for roadway improvement are provided in the current Manual of Roadway Design and Construction Standards (Road Manual).

**17. Roadway Functional Classification:**

a. Minor Collector (C): Minor collector roads provide service to smaller communities and link important traffic generators with the rural hinterland. These routes should be spaced at intervals consistent with population density in order to accumulate traffic from local roads and bring traffic from all developed areas within a reasonable distance of collector roads.

18. A basic review of the access to the subject property identifies the following:

a. Primary access to the property is along 2200 South

19. 2200 South – County Road:

a. South of the subject parcel, 2200 South is a County road classified as a Minor Collector.

b. This road provides access to agricultural fields and residential homes.

c. Is maintained by the County year round, and has a posted speed limit of 35 MPH.

d. Has an existing width of 22 feet, a 50-foot right-of-way, 1-foot paved shoulder, 2-foot gravel shoulder, a 5 to 10-foot clear zone, and is paved.

e. Is considered substandard as to right-of-way, paved shoulder, gravel shoulder, and clear zone.

f. Currently has a public/private road spacing of 300 feet and has a commercial, residential, and farm access spacing of 200 feet.

Conner,

Thanks for the notice. This property is both in the City's Current Version of the Future Land Use Plan and the 2022 Annexation Policy Plan. This area is not currently contiguous to Logan City and so it is hard to estimate when an annexation would occur but the current plans show that the likely zoning of the area would be single family detached between 4-6 homes per acre if annexed into the Logan City jurisdiction. Logan City utilities needed to adequately service this type of single family development currently existing west of the subject property near the intersection of 2200 S 1600 W. Thanks and if you have any further questions please let me know.

Hey Conner,

Could you please post the following for Public Comment associated with our rezone request?

Thanks Conner!

The purpose of this rezone request is to allow for the future construction of an additional home and workshop on this parcel. Although RU5 zoning would be more appropriate for this type of project density, it is not allowed due the amount of acreage taken up by sensitive land (3.15 acres of wetlands and water bodies), leaving insufficient acreage. Even with the RU2 zoning, due to the remaining acreage (~6.45 acres) and existing home, only a maximum of 2 additional homes could be added under RU2 zoning. It is our intent to continue with agricultural use of this parcel.

**Findings of Fact**

**A. Request description**

1. A request to apply the Public Infrastructure (PI) Overlay onto 40.00 acres in the Agricultural (A10) Zone.
2. This rezone may allow the parcel to establish uses permitted by the Public Infrastructure (PI) Overlay. A rezone request is general in nature and is not tied to any proposed use. Any impacts related to permitted and conditional uses allowed within the Public Infrastructure (PI) Overlay will be addressed as part of each respective approval process required prior to site development activities.

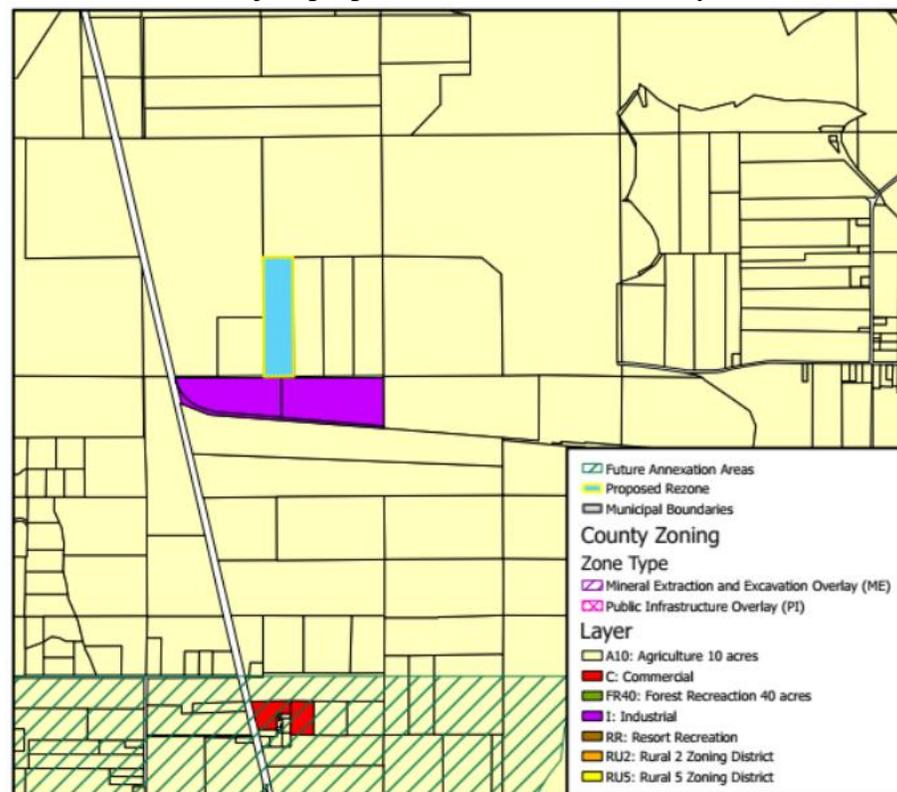

3. Staff has identified general information as pertains to the subject property to assist the Planning Commission and County Council in arriving at a decision. This information is reflected in the attached map (Attachment A) and in the following text.
  - a. Land Use Context:
    - i. Parcel status: The properties match the configuration they had on August 8, 2006 and are legal.
    - ii. Average Lot Size: (See Attachment A)

Average Parcel Size	
<b>Adjacent Parcels</b>	Without a Home: 93.1 Acres (7 Parcels)
<b>1/4 Mile Buffer</b>	Without a Home: 78.3 Acres (11 Parcels)
<b>1/2 Mile Buffer</b>	Without a Home: 82.3 Acres (16 Parcels)

**Revised Pg. 6 - Planning Commission Recommendation**

- i. Schedule of Zoning Uses: The Public Infrastructure (PI) Overlay allows for a variety of uses with the approval of a zoning clearance and/or conditional use permit that are not permitted in the Agricultural (A10) Zone:
  - Utility Facility, Transmission
  - Telecommunication Facility, Major
  - Telecommunication Facility, Minor
  - Public Airport
  - Solid Waste Facilities
- ii. Adjacent Uses: The properties to north, east, and south of the subject parcel are primarily used for agricultural purposes while the property to the west is used for a mix of recreational and agricultural purposes. The nearest parcel, in the county, that has the Public Infrastructure (PI) Overlay is located 8 miles to the south-east of the subject parcel.
  - The Cache Junction Industrial Park rezone, located directly to the south of the subject property, was a request to rezone 96.35 acres from the Agricultural (A10) Zone to the Industrial (I) Zone, and was approved by County Council on November 27<sup>th</sup>, 2007 as Ordinance 2007-12. However, the property has never been developed.
- iii. Annexation Areas: The subject properties are not located in any future annexation area.

**B. Ordinance—§12.02.010, §17.02.060; §17.08.030 [E]**

4. As per §17.02.060, Establishment of Land Use Authority, the County Council is authorized to act as the Land Use Authority for this application.

5. The current County Land Use Ordinance does not specify appropriate locations for the Public Infrastructure (PI) Overlay but does contain general guidelines for its implementation. County Land Use Ordinance §17.08.030 [E] identifies the purpose of the Public Infrastructure (PI) Overlay and includes the following:
  - a. “To provide for the siting and operation of public infrastructure in an environmentally sound and economically competitive manner.”
  - b. “To inform current and potential residents of the county of the possible location of future public infrastructure locations.”
  - c. “to ensure that any public infrastructure be designed, constructed, and operated in a safe and efficient manner, and in compliance with all federal, state, and local laws and regulations for the protection of the general health, welfare, and safety of the citizens of the county.”
6. Chapter 4: Future Land Use Plan of the Cache County General Plan states:
  - a. “The use of land is one of the most important and fundamental values for landowners, residents, civic leaders, and elected officials. This determines, in large measure, the future of Cache County. The Future Land Use Map represents the County’s collective vision of our desired future. It conveys the patterns and priorities of economic development and community character, the locations of neighborhoods and industries, and the preservation of natural, agricultural, and rural landscapes.”
  - b. “The Future Land Use Plan is advisory and does not change the existing zoning of any property or the ability of landowners to continue existing legal uses consistent with the existing zoning or nonconforming uses. It serves as a starting point for conversations about regional initiatives and development proposals by illustrating how sometimes separate and uncoordinated activities can help or harm our desired future. The timing of future development will depend on a number of factors including choices made by individual landowners, aspirations of the community, and future availability of facilities and services.”
7. The future land use map (Attachment B) adopted as part of the Cache County General Plan identifies the area where the subject property is located as “Agriculture and Ranching.” *Cache County General Plan, Chapter 4, Page 26*. This section states:
  - a. Location: Private agriculture landscapes in the Cache Valley outside of municipalities.
  - b. Example Areas: Most of the valley.
  - c. Purpose and Character: Agricultural and rangeland uses on private lands under conservation easements (no public access) are expected to continue in the Valley. Separation from dense residential developments is advantageous. The agricultural landscape provides separation between adjacent municipalities and protects suitable soils.
  - d. Preferred Land Uses: Agriculture, ranching, rural residential uses at densities of less than one unit per 10 acres, Conservation Easements (CEs) and conserved public lands, Agritourism.
  - e. Secondary Land Uses: Industrial and Commercial uses directly supportive of agriculture (Processing, Packaging, Distribution), clustered subdivision developments, outdoor recreation, farm worker housing.
  - f. Discouraged Uses: Residential developments at densities of greater than one unit per 10 acres if not in a clustered subdivision development, commercial office, commercial retail, flex office/industrial, heavy industrial.

8. Consideration of impacts related to uses allowed with the Public Infrastructure (PI) Overlay will be addressed as part of each respective approval process required prior to site development activities.
- C. Access—16.04.040 [A], 16.04.080 [E], Road Manual**
9. §12.02.010 adopts the Manual of Roadway Design and Construction Standards (Road Manual) for roadway improvement requirements.
  10. §16.02.010 Standards and Lot Size – All subdivisions must meet the minimum lot and development standards as outlined in each base zone of the Cache County Zoning Ordinance and within this title.
  11. Table §17.10.040 Site Development Standards – Minimum lot frontage required in the Agricultural (A10) Zone is 90’.
  12. §17.07.040 General Definitions – Lot/Parcel Frontage: that portion of a development site that abuts a public or private roadway. For the purposes of determining setback requirements on corner lots, all sides of a lot adjacent to a roadway shall be considered frontage
  13. §16.04.040 [A] Roads – All roads must be designed and constructed in accordance with Title 12 of the County Code.
  14. §12.02.010 Roadway Standards – Requirements for roadway improvement are provided in the current Manual of Roadway Design and Construction Standards (Road Manual).
  15. Roadway Functional Classification:
    - a. Major Collector (MC): Major collector roads serve larger towns and other traffic generators of equivalent inter-county importance, such as schools, shipping points, and county parks, which are not directly served by minor arterial roads.
  16. A basic review of the access to the subject property identifies the following:
    - a. Primary access to the subject property is along 3000 North (Black Rock Road)
  17. 3000 North – County Road:
    - a. South of the subject parcel, 3000 North is a County road classified as a Major Collector.
    - b. The road provides access to agricultural fields and serves as a through access from Benson to SR-23.
    - c. Is maintained by the County year round and, because it does not have a posted speed limit, has a speed limit of 55MPH.
    - d. Has an existing width of 24 feet, a 66-foot right-of-way, 1-foot-wide paved shoulder, 2-foot-wide gravel shoulder, a clear zone of 24 feet, and is paved.
    - e. Is considered substandard as to right-of-way, paved shoulder, gravel shoulder, and clear zone.
    - f. Currently has a public/private road spacing of 350 feet and has a commercial, residential, and farm access spacing of 200 feet.

<b>Roadway Element</b>	<b>Existing Width (ft)</b>	<b>Future Width (ft)</b>	<b>Comments or Findings</b>
Travel Lanes	24	24	<b>OK</b>

- 23. At this time, no written public comment regarding this proposal has been received by the Development Services Office.

**Conclusion**

---

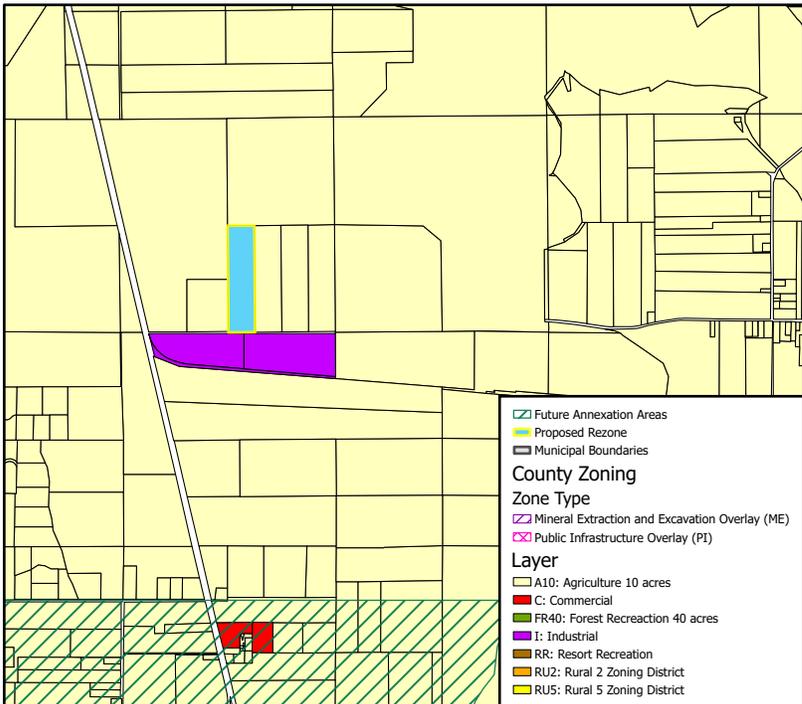

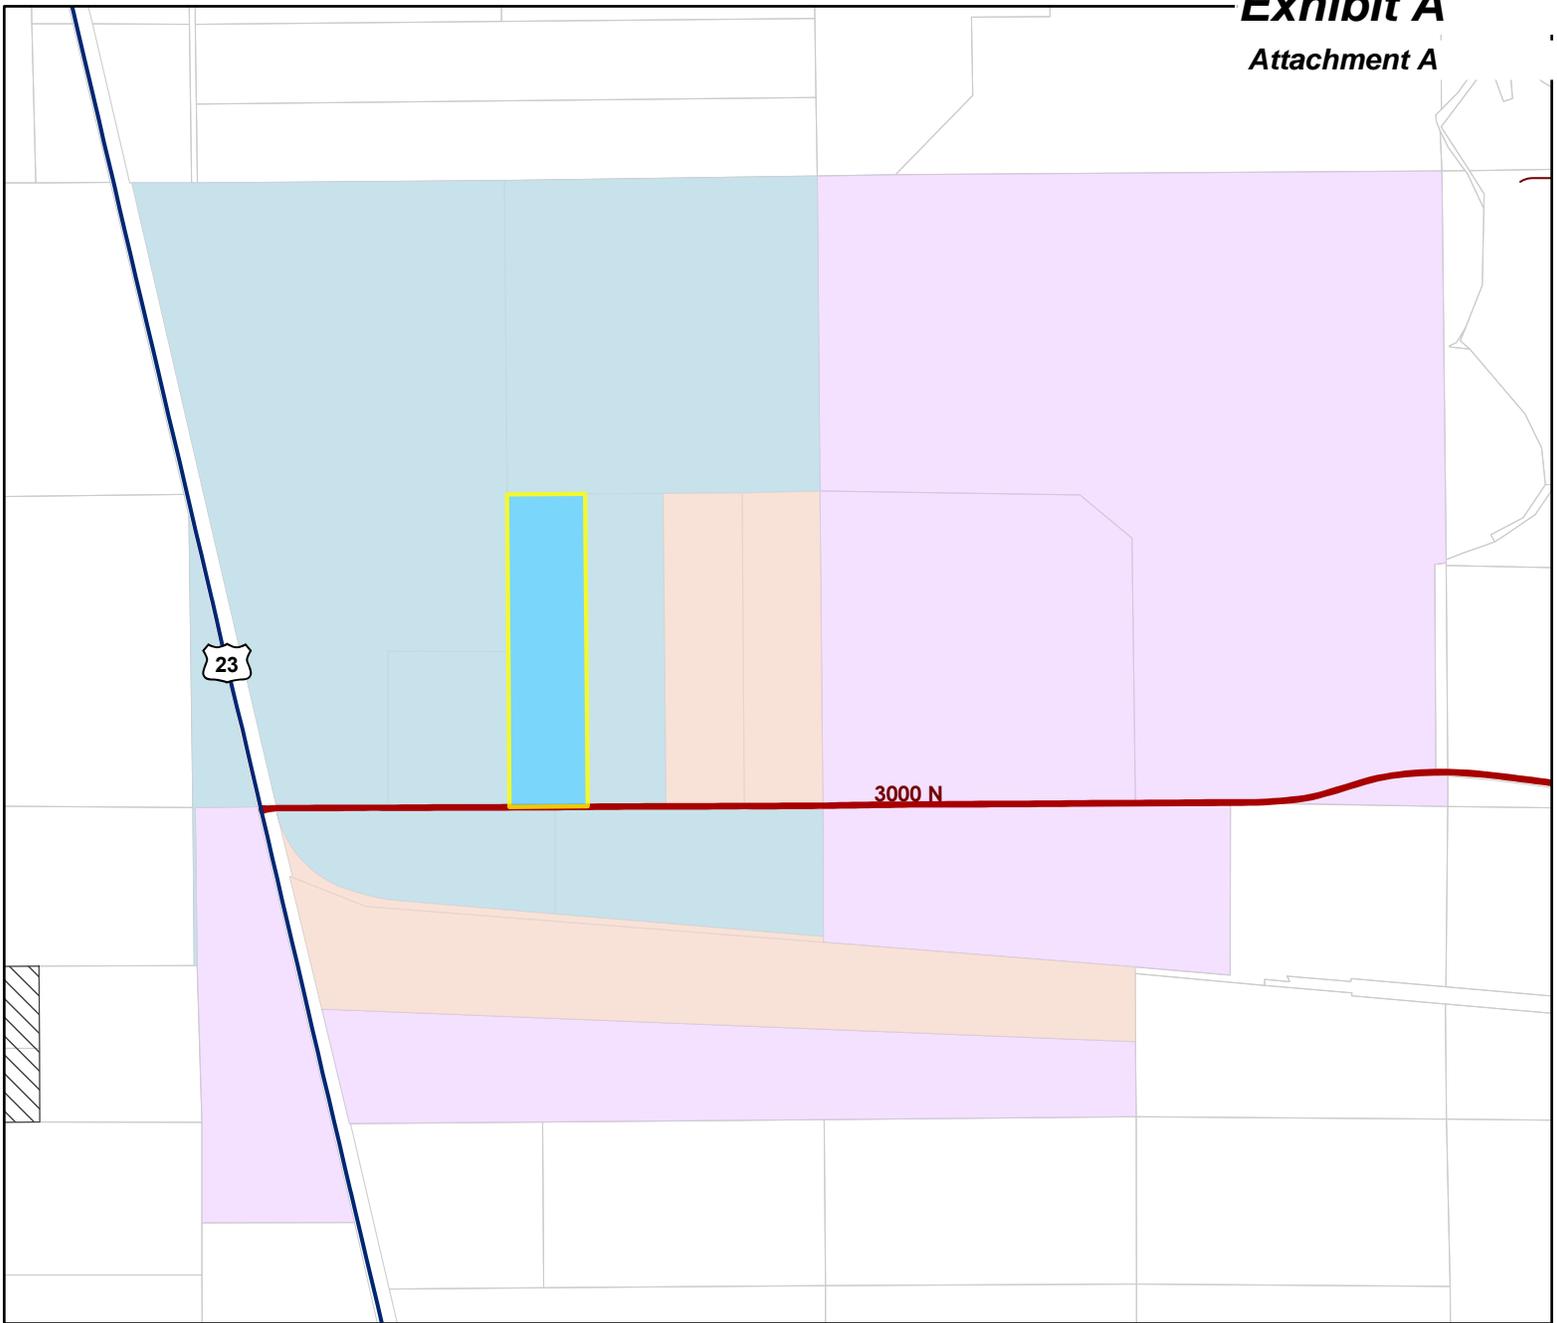

The Rezone CS rezone, a request to apply the Public Infrastructure (PI) Overlay onto 40.00 acres in the Agricultural (A10) Zone has been reviewed in conformance with Title 17 of the Cache County Land Use Ordinance and the County Manual of Roadway Design and Construction Standards. Staff has not made a recommendation based on the findings of fact identified above and any others identified at the public hearing. Although Staff has not made a recommendation for approval or denial, they can help Planning Commission draft a recommendation to County Council.

**Planning Commission Conclusion**

---

Based on the findings of fact noted herein, the Rezone CS rezone is hereby recommended for denial to the County Council as follows:

- 1. The nearest area, in the county, that has the Public Infrastructure (PI) Overlay is located eight miles away.
- 2. The rezone is potentially not consistent with the Cache County General Plan:
  - a. This parcel falls within the “Agriculture and Ranching” zone which places an emphasis on agriculture and ranching related activities. A large scale public infrastructure project is potentially not consistent with that desired use.

**Ordinance No. 2025-10**  
**Cache County, Utah**  
**Willets RU5 Rezone**

---

An ordinance amending the County Zoning Map by rezoning 18.71 acres from the Agricultural (A10) Zone to the Rural 5 (RU5) Zone

**Whereas**, the “County Land Use Development and Management Act,” Utah Code Ann. §17-27a-101 et seq., as amended (the “Act”), provides that each county may enact a land use ordinance and a zoning map establishing regulations for land use and development; and

**Whereas**, pursuant to the Act, the County’s Planning Commission (the “Planning Commission”) shall prepare and recommend to the county’s legislative body, following a public hearing, a proposed land use ordinance and a zoning map, or amendments thereto, that represent the Planning Commission’s recommendations for zoning the area within the county; and

**Whereas**, the Planning Commission caused notice of a public hearing for the rezone to be posted at least ten (10) days before the date of the public hearing; and

**Whereas**, on February 6<sup>th</sup>, 2025, the Planning Commission held a public hearing, accepted all comments, and recommended denial of the proposed amendments to the County Council for final action; and

**Whereas**, the Act also provides certain procedures for the county legislative body to adopt or reject amendments to the land use ordinance and zoning map for the county; and

**Whereas**, on March 11<sup>th</sup>, 2025, the County Council held a public hearing, to consider any comments regarding the proposed rezone. The County Council accepted all comments; and

**Whereas**, the Cache County Council has determined that it is both necessary and appropriate for the County to amend and implement this ordinance.

**Now, therefore**, the County Legislative Body of Cache County ordains as follows:

**1. Statutory Authority**

The statutory authority for enacting this ordinance is Utah Code Annotated Sections 17-27a Part 1 and Part 3, and 17-53 part 2(1953, as amended to date).

**2. Adoption of amended Zoning Map**

The County Council hereby amends the County’s Zoning Map to reflect the rezone of the property affected by this ordinance and hereby adopts the amended Zoning Map with the amendment identified as Exhibit B, of which a detailed digital or paper copy is available in the Development Services Department.

**3. Conclusions**

### **3. Conclusions**

- A.** The subject property is reasonably consistent with the purpose of the Rural 5 (RU5) Zone:
  - i.** “To allow for residential estate development in a low density pattern that can allow for rural subdivisions and smaller scale agricultural uses. This type of development should be located and designed to not unreasonably impede adjacent agricultural uses, nor to unreasonably conflict with the development standards of adjacent municipalities.”
  - ii.** “To implement the policies of Cache countywide comprehensive plan, including those regarding agricultural promotion, prime farmlands, improved roadways, density based residential standards, clustering, moderate income housing and municipality standards.”
  - iii.** “This zone must be appropriately served by suitable public roads, have access to the necessary water and utilities, and have adequate provision of public services.”
- B.** The rezone is partially consistent with the Cache County General Plan:
  - i.** This parcel is located in the “Urban Expansion Overlay”.
  - ii.** The Cache County General Plan shows this parcel in the “Agriculture and Ranching” Zone. Should any potential subdivisions be clustered, densities of residential developments that are greater than one unit per ten acres are encouraged.
- C.** The rezone is consistent with the Wellsville City General Plan:
  - i.** The Wellsville City General Plan identifies this area as Farmland Residential Cluster – 5ac.
  - ii.** Residential – Farmland is defined within the Wellsville City General Plan as:
    - i.** “This area is identified on the Land Use Plan to remain, primarily, as an agriculture production area. This area has historically been the primary farming land of the community and the City should preserve the qualities of this area by minimizing the taking of this land for residential, commercial, or industrial uses. While residential uses are somewhat compatible with agricultural uses, residential development in this area should be minimized and large areas should be required to stay in agricultural use.”

### **4. Prior ordinances, resolutions, policies, and actions superseded**

This ordinance amends and supersedes the Zoning Map of Cache County, and all prior ordinances, resolutions, policies, and actions of the Cache County Council to the extent that the provisions of such prior ordinances, resolutions, policies, or actions are in conflict with this ordinance. In all other respects, such prior ordinances, resolutions, policies, and actions shall remain in full force and effect.

### **5. Exhibits**

**A.** Exhibit A: Rezone summary and information

**B.** Exhibit B: Zoning Map of Cache County showing affected portion.

### **6. Effective date**

This ordinance takes effect on \_\_\_\_\_, 2025. Following its passage but prior to the effective date, a copy of the ordinance shall be deposited with the County Clerk and a short summary of the ordinance shall be published in a newspaper of general circulation within the County as required by law.

12 Conclusion: Based on the findings of fact noted [in the staff report], the Willets RU5 rezone is  
13 hereby recommended for denial to the County Council as follows:

- 14 1. It is unclear if the provided UDOT permit supports the construction of more than two  
15 homes.
- 16 2. The nearest area, in the County, that is in the Rural 5 (RU5) Zone is located one mile  
17 away.
- 18 3. The rezone is partially not consistent with the Cache County General Plan:
  - 19 a. This parcel is located in the “Agriculture and Ranching” area which places an  
20 emphasis on agriculture related activities. The Rural 5 (RU5) Zone has fewer  
21 agricultural related use types than the Agricultural (A10) Zone.

**Findings of Fact**

**A. Request description**

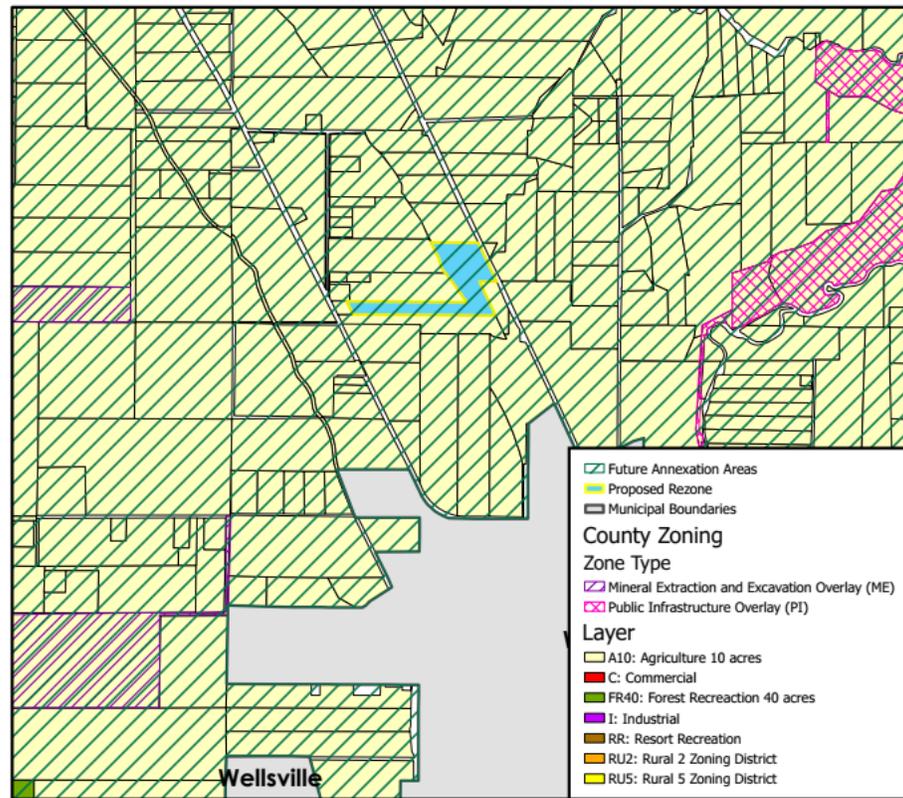

1. A request to rezone 18.71 acres from the Agricultural (A10) Zone to the Rural 5 (RU5) Zone.
2. History:
  - a. In August of 2024, this parcel went through the rezone application process to go from the Agricultural (A10) Zone to the Rural 2 (RU2) Zone. On 1 August 2024, the Planning Commission unanimously recommended denial to the County Council and on 27 August 2024 the County Council unanimously voted for denial.
3. Should the rezone request be approved, the maximum number of potential lots will be three.

4. This rezone may allow the parcel to establish uses permitted in the Rural 5 (RU5) Zone. A rezone request is general in nature and is not tied to any proposed use. Any impacts related to permitted and conditional uses allowed within Rural 5 (RU5) Zone will be addressed as part of each respective approval process required prior to site development activities.
5. Staff has identified general information as pertains to the subject property to assist the Planning Commission and County Council in arriving at a decision. This information is reflected in the attached map (Attachment A) and in the following text.
  - a. Land Use Context:
    - i. Parcel status: The property does not match the configuration it had on August 8, 2006 as boundary line adjustments and the splitting of a non-contiguous portion of the parcel was done. However, the property is still legal.
    - ii. Average Lot Size: (See Attachment A)

Average Parcel Size	
<b>Adjacent Parcels</b>	With a Home: 3.2 Acres (4 Parcels)
	Without a Home: 12.9 Acres (19 Parcels)
<b>1/4 Mile Buffer</b>	With a Home: 2.2 Acres (12 Parcels)
	Without a Home: 11.7 Acres (40 Parcels)
<b>1/2 Mile Buffer</b>	With a Home: 4.5 Acres (37 Parcels)
	With a Home in Wellsville City: 1.4 Acres (15 Parcels)
	Without a Home: 13.4 Acres (71 Parcels)
	Without a Home in Wellsville City: 4.4 Acres (5 Parcels)

- i. Schedule of Zoning Uses: The Rural 5 (RU5) Zone is more restrictive than the Agricultural (A10) Zone. The following uses are ones that are permitted, with the use of a zoning clearance or CUP, in the Rural 5 (RU5) Zone:
  - Single Family Dwelling
  - Accessory Apartment
  - Accessory/Agricultural Structures
  - Home Based Business
  - Seasonal Cabin
  - Residential Living Facilities
  - Home Based Kennel
  - Bed and Breakfast Inn
  - Religious Meeting House
  - Utility Facility, Distribution
  - Farm Stand
  - Board Facility
  - Site Grading
- ii. Adjacent Uses: The properties adjacent to the subject parcel to the east and south are primarily used for agricultural purposes while the properties to the north and west are used for agricultural and residential purposes. The nearest parcel, in the county, in the Rural 5 (RU5) Zone is located a mile to the northwest of the subject parcel.
- iii. Annexation Areas: The subject property is located within the Wellsville City future annexation area.

- The Wellsville General Plan Map, an appendix to the Wellsville City General Plan, marks this location as “Farmland Residential Cluster – 5ac”.

**B. Ordinance—§12.02.010, §17.02.060; §17.08.030 [E]**

6. As per §17.02.060, Establishment of Land Use Authority, the County Council is authorized to act as the Land Use Authority for this application.
7. The current County Land Use Ordinance does not specify appropriate locations for the Rural 5 (RU5) Zone but does contain general guidelines for its implementation. County Land Use Ordinance §17.08.030 [E] identifies the purpose of the Rural 5 (RU5) Zone and includes the following:
  - a. “To allow for residential development in a moderately dense pattern that can allow for rural subdivisions, and to allow for clustering plans larger than a single parcel. This type of development should be located and designed to not unreasonably impede adjacent agricultural uses, nor to unreasonably conflict with the development standards of adjacent municipalities.”
  - b. “To implement the policies of Cache countywide comprehensive plan, including those regarding improved roadways, density based residential standards, clustering, moderate income housing and municipality standards.”
  - c. “This zone must be appropriately served by suitable public roads, have access to the necessary water and utilities, and have adequate provision of public services.”
8. Chapter 4: Future Land Use Plan of the Cache County General Plan states:
  - a. “The use of land is one of the most important and fundamental values for landowners, residents, civic leaders, and elected officials. This determines, in large measure, the future of Cache County. The Future Land Use Map represents the County’s collective vision of our desired future. It conveys the patterns and priorities of economic development and

- d. Preferred Land Uses: Annexations within these areas should strive to accomplish the densities, intensities, and street patterns contained where urban-level infrastructure is available. Affordable housing options are also appropriate in this area.
- e. Secondary Land Uses: Civic (meeting spaces), residential support uses (e.g. parks, medical, schools, fire and police stations).
- f. Discouraged Uses: Uses that are not consistent with the municipal general plan or existing county zoning.

11. Consideration of impacts related to uses allowed within the Rural 5 (RU5) Zone will be addressed as part of each respective approval process required prior to site development activities.

**C. Access—16.04.040 [A], 16.04.080 [E], Road Manual**

12. §12.02.010 adopts the Manual of Roadway Design and Construction Standards (Road Manual) for roadway improvement requirements.

13. §16.02.010 Standards and Lot Size – All subdivisions must meet the minimum lot and development standards as outlined in each base zone of the Cache County Zoning Ordinance and within this title.

14. Table §17.10.040 Site Development Standards – Minimum lot frontage required in the Rural 5 (RU5) Zone is 90 feet.

15. §17.07.040 General Definitions – Lot/Parcel Frontage: that portion of a development site that abuts a public or private roadway. For the purposes of determining setback requirements on corner lots, all sides of a lot adjacent to a roadway shall be considered frontage

16. §16.04.040 [A] Roads – All roads must be designed and constructed in accordance with Title 12 of the County Code.

17. §12.02.010 Roadway Standards – Requirements for roadway improvement are provided in the current Manual of Roadway Design and Construction Standards (Road Manual).

18. The Road Manual specifies the following:

- a. §2.1 Roadway Functional Classification – Minor Arterial (A): Minor arterial roads link cities, larger towns, and other large traffic generators and are capable of facilitating travel over long distances. These routes have relatively high travel speeds and minimal interferences to the through movement of traffic.

19. A basic review of the access to the subject property identifies the following:

- a. An analysis of the nearest road, SR-23, is below.

20. SR-23 – Utah Department of Transportation (UDOT) Road:

- a. West of the subject parcel, SR-23 is an UDOT road classified as a Minor Arterial.
- b. The road services multiple dwellings and agricultural uses but is primarily the connection between Mendon and Wellsville with access to SR-30 and Highway 89/91.
- c. Is maintained by UDOT.
- d. This section of SR-23 is classified per UDOT as an Access Category 4, which has a minimum driveway spacing of 500 feet and a minimum street spacing of 660 feet.
- e. Frontage for buildable lots in the County requires a minimum of 90 feet on a public or private road. Based on an initial review of the existing County road grid and existing driveways along SR-23, it does not appear access that meets the requirements of the County Road Manual is possible in combination with UDOT requirements. It is possible that the property could be accessed by 4100 S., an existing private road to the North, but the road would have to be extended through another property owner's parcel.

**D. Service Provisions:**

21. §16.04.080 [C] Fire Control – The County Fire District had no comments in regards to this application.

22. §16.04.080 [F] Solid Waste Disposal – Applicant must work with Waste Management for solid waste disposal.

**E. Public Notice and Comment—§17.02.040 Notice of Meetings**

23. Public notice was posted online to the Utah Public Notice Website on 24 January 2024.

24. Notices were posted in three public places on 24 January 2024.

25. Notices were mailed to all property owners within 300 feet on 24 January 2024.

26. At this time, no written public comment regarding this proposal has been received by the Development Services Office.

## **Conclusion**

---

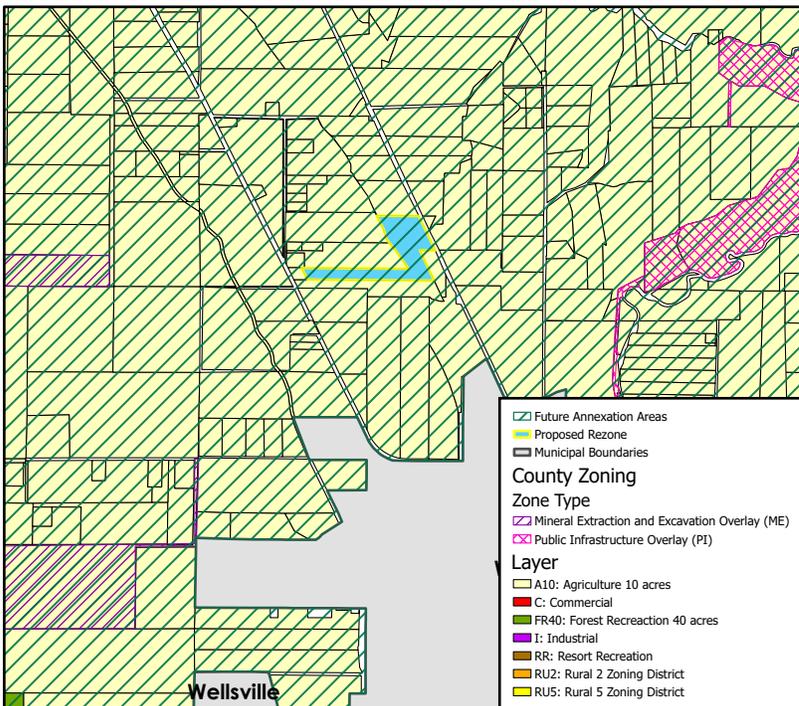

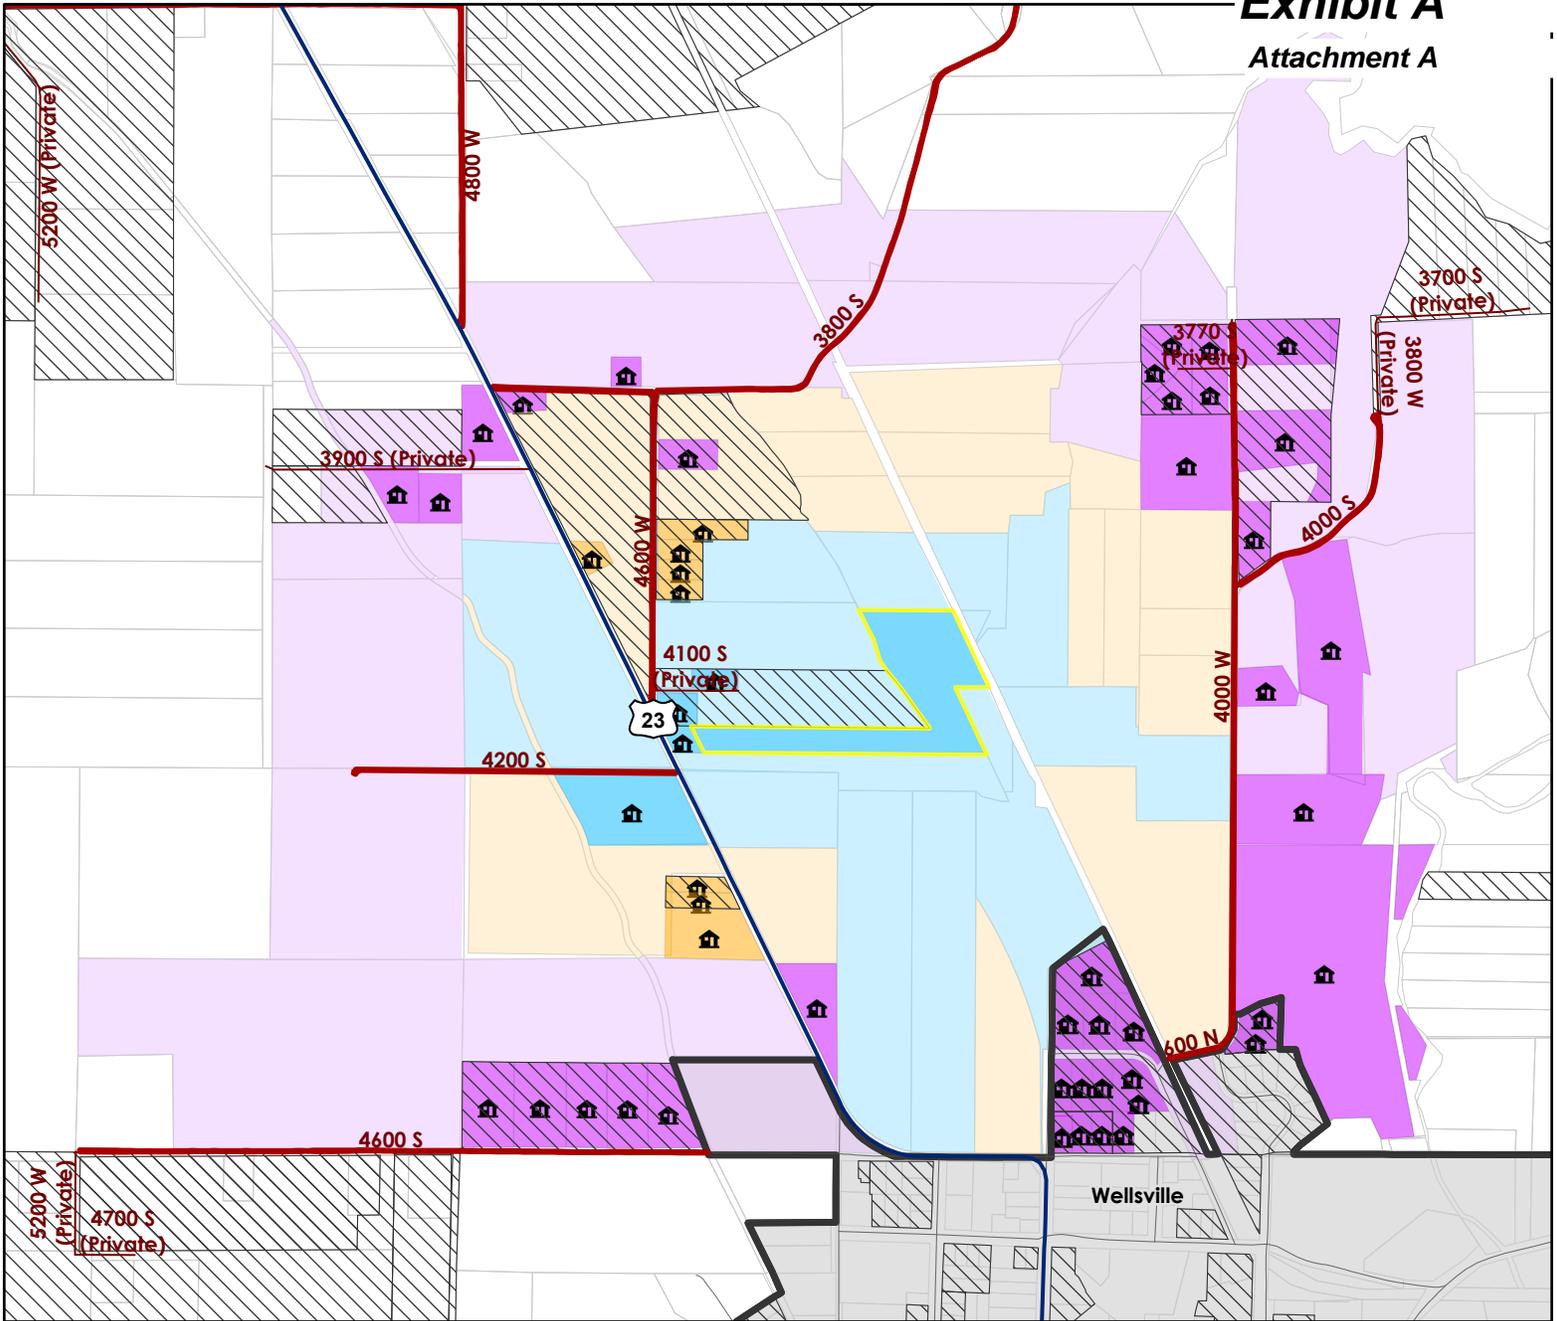

The Willets RU5 rezone, a request to rezone 18.71 acres from the Agricultural (A10) Zone to the Rural 5 (RU5) Zone has been reviewed in conformance with Title 17 of the Cache County Land Use Ordinance and the County Manual of Roadway Design and Construction Standards. Staff has not made a recommendation based on the findings of fact indentified above and any others identified at the public hearing. Although Staff has not made a recommendation for approval or denial, they can help Planning Commission draft a recommendation to County Council.

## **Planning Commission Conclusion**

---

Based on the findings of fact noted herein, the Willets RU5 rezone is hereby recommended for denial to the County Council as follows:

1. It is unclear if the provided UDOT permit supports the construction of more than two homes.
2. The nearest area, in the County, that is in the Rural 5 (RU5) Zone is located one mile away.
3. The rezone is partially not consistent with the Cache County General Plan:
  - a. This parcel is located in the “Agriculture and Ranching” area which places an emphasis on agriculture related activities. The Rural 5 (RU5) Zone has fewer agricultural related use types than the Agricultural (A10) Zone.
4. The parcel currently has no road frontage.

Dear [City Council/Committee Members],

I am writing to express my strong opposition to the proposed rezoning request for the Willets RU5 project. As a member of this community and someone who has had direct experience with the safety concerns along Highway 23, I urge you to carefully consider the potential consequences this project could have on the safety of the children who rely on the special needs bus service in the area.

The special needs buses serve children ranging in age from 3 to 19, and they stop multiple times a day—at 6:00 am, 8:00 am (twice), 11:00 am, 2:00 pm, and 3:00 pm—at stops located within 100 feet to the north and 300 feet to the south of the proposed rezoning. The speed limit on Highway 23 is currently 55 mph, and it already carries a significant amount of traffic. I have personally ridden the special needs bus for the past 11 years, and I have witnessed firsthand how dangerous it can be, with drivers frequently passing buses with their red lights on or coming dangerously close to hitting children. This is already a major concern, and adding more traffic to this area by approving the rezoning would only exacerbate the risks.

The increased traffic and the proximity of the proposed development to bus stops will create an unsafe environment for children getting on and off the bus. The concern for the safety of these children should be the primary consideration, as we have a duty to protect their well-being. Passing this rezoning would create a more hazardous situation on Highway 23, and the ripple effect of increased traffic could lead to more accidents and potential fatalities.

I am also concerned about who would be held liable in the event of an accident. Would it be Mr. Jed Willets, the developer, or the council members who approve this rezoning? We need to carefully consider the long-term impacts of this decision and prioritize the safety of our community's children above all else.

Mr. Willets was fully aware of the zoning restrictions when he purchased the property, and this is not the first attempt to rezone it. It is important to note that the northern subdivisions of this property, which consist of only three homes, do not connect directly to Highway 23 and experience less traffic. Expanding the development will only continue to increase traffic, which is already a pressing concern. I also would like to add, that this property doesn't have enough frontage to hold the traffic that will be traveling in and out of it. That poses as a concern as well.

I strongly urge you to reject the rezoning request to ensure the safety of our children, the integrity of our community, and the preservation of safe transportation for all. Please think about the well-being of the children who use this bus service every day. This should be our top priority.

Thank you for your attention to this critical matter.

Sincerely,

Lacie Liechty

Dear Planning Commission Board,

We have concerns about the Willets RU-5 rezone. We attended the previous meeting for this piece of property. Our concerns are still the same with most of them being a safety concern of more traffic in this area. The speed limit on Highway 23 at this point is 55 MPH, with most people realistically going 60-70 MPH. We live off 4600 W. and know that to exit this highway you must be going rather quickly. The exit for this purposed subdivision is an extreme safety concern with multiple cattle semi-trailers and farm equipment that pass this section of highway almost daily. Below are the main concerns we have.

1. With this rezone we have safety concerns about all new traffic that will be exiting/entering Highway 23, that already has a busy intersection just to the North (4600 W.) that has a subdivision and a blue barn Airbnb close to the highway that can congest that intersection and make it dangerous.
2. In the previous rezone attempt of this property, we stated that this piece of property is not for a subdivision. If Mr. Willets gets this rezone, he has the possibility to add three houses. If he obtains the ability to do three houses there with be nothing to stop the landowners to the South (Mr. and Mrs. Larsen) from rezoning to RU-5 and putting two homes on their property which would bring five homes coming onto the highway. The last rezone rejected a five-home proposal.
3. We are concerned that allowing that many homes will put more stress on the springs to the east that water 100's of acres of farmland due to each home having to drill new wells.
4. With Cache County putting an emphasis on open space we have concerns that if you allow parcels that are zoned A10 to be rezoned to either RU-5/RU-2 Cache County will have a problem of when to allow or not allow properties to be rezoned. People should know that when they purchase a piece of property if it zoned A10 then they need 10 acres for one home. Mr. Willets knew this property was A10 when he purchased it, we have no problem with one home the property.

Sincerely,

Derrick and Bessie Hendry

**Wellsville City - Willets RU5 Rezone**

To: conner.smith@cachecounty.gov, Tom Bailey &lt;tbailey@wellsvillecity.com&gt;

Dear Cache County Planning Commission,

Thank you for the notification regarding the Willets RU5 Rezone request.

Wellsville has no issues because the RU5 is in line with the Wellsville Master Plan and we believe that at some time this parcel will be annexed into Wellsville City.

However, as they move forward we would ask that the developer be required to establish a roadway that is compatible with a grid system and that will allow a future road which will continue through this property and stub east from this development.

Additionally Wellsville City does not allow cul de sacs so we would request that no cul de sacs be allowed in this development or any other development that will potentially be annexed into Wellsville City in the future.

Another concern is the access off of Highway 23. Wellsville City feels this access should be designed and developed so it can accommodate the future growth that will be using the access; not only for this development, but for additional growth to the east. This will need to be part of the discussion with UDOT through the permitting process. Unless UDOT is involved, developers will most likely do the bare minimum. We need to make sure this is not the case for accesses off of Highway 23. These are all future roadways for potential growth going to the east.

Thanks,

**Subject: Easement Concern Regarding Rezoning**

Dear Cache County Development Services Department,

I was unable to attend this evening's meeting as I had planned.

I have an issue with this project and am currently awaiting clarification from my attorney. I have an easement through the property in question, which is now being considered for rezoning. Previously, I had an agreement with the prior owner that the easement could be relocated only if we mutually agreed. The concession was specific to the previous owner it was not transferable and it did not run with the land.

However, Willets moved my easement and recorded it without my permission. The new location hinders my access, and this change was recorded without my consent.

If this property is rezoned without addressing this issue, it could potentially involve additional parties in litigation. I request that my easements be restored to their rightful location before any rezoning decisions are made.

Please confirm receipt of this letter and advise me on the appropriate steps to formally address this matter.

Sincerely,

**L. Compensatory Time**

The FLSA authorizes the County to provide compensatory time off, instead of overtime compensation at a rate not less than one and one-half hours for each hour of employment for which overtime compensation is required. If an employee accumulates more compensatory time than the limits provided for in the FLSA or by this policy, then overtime compensation shall be paid at the hourly rate earned by the employee at the time of payment, multiplied by the number of compensatory time hours accrued. **L. Compensatory Time**

The FLSA authorizes the County to provide compensatory time off, instead of overtime compensation at a rate not less than one and one-half hours for each hour of employment for which overtime compensation is required. If an employee accumulates more compensatory time than the limits provided for in the FLSA or by this policy, then overtime compensation shall be paid at the hourly rate earned by the employee at the time of payment, multiplied by the number of compensatory time hours accrued. The employee shall be permitted to use compensatory time within a reasonable period after making the request if the use of the compensatory time does not unduly disrupt the operation of the County.

1. Compensatory time off must be authorized by an employee’s Department Head in advance.

NOW THEREFORE, be it resolved by the County Council of Cache County, Utah, that the Cache County Personnel Policy & Procedure Manual be changed as follows:

**SECTION 1**

Cache County Policy and Procedure Manual Section VII, is amended to read as follows with a redline copy attached as “EXHIBIT 1”:

**Section VII -- Personnel Management**

**A. Compensation Plan**

Cache County has a compensation plan that aligns with fair market wages & salaries and is performance-based. Cache County Corporation annually reviews with a minimum of eight other counties and five cities in the State of Utah that are approximately the same population size regarding wage and salary information, benefit plans, and general personnel policies and practices to establish a fair market value for positions within the participating counties and cities.

1. Cache County Corporation will endeavor to offer fair market wages & salaries to employees at a level of parity equal to the market’s mid-point (average rate of pay), based on their level of performance, and their length of service within their job classification. Any exceptions must be based on sound market justification and approved by the Director of Personnel Management and the County Executive.

**B. Job Descriptions**

**CACHE COUNTY**  
**ORDINANCE NO. 2025 - 11**

Each position shall have a written job description drafted by the Department Head and the Office of Personnel Management. The description shall include the job title, department, responsibilities, tasks performed under each responsibility, and the knowledge or education, skills, and abilities required to fulfill the job.

The job description shall state all job-related minimum requirements, which all successful candidates should meet to be eligible for appointment or promotion.

**C. Reclassification**

When the responsibilities of a position have increased substantially as to the kind and/or level of work, the Department Head may request a reclassification. The reclassification of a position must be justified based on a substantial change in duties and responsibilities, meeting the required licensure and certification, education and experience, and skills of the higher classification level. The request must be submitted in writing to the Director of Personnel Management, accompanied by the job description.

1. Position reclassification is subject to budgetary limitations and must be approved by the Director of Personnel Management and the Elected Official.
2. Upon reclassification, if a pay increase is granted, the employee would not be subject to the 6-month orientation period and is eligible for the next annual increase.

**D. Compensation Administration**

The Director of Personnel Management shall administer an equitable and adequate compensation plan. Benefits are administered with wage/salary plans as part of the total compensation plan.

1. The Director of Personnel Management and the Compensation Committee shall make a combined recommendation to the County Executive which shall include:
  - a. A cost of living adjustment based on the current economic conditions.
  - b. A recommended wage/salary adjustment for merit and market increases and
  - c. A recommended benefits program
2. The County Executive shall consider these recommendations as department budgets are developed for the next calendar year and consider the recommendations in the tentative budget.
3. The County Council shall adopt wage/salary and benefit plans after considering the recommendations of the Compensation Committee, the Director of Personnel Management, and the County Executive, based on the financial and economic conditions of the County.

**E. Merit and Market Increases**

A merit increase is an increase in pay for an employee who has given sustained acceptable service over the past year. A merit increase is based on an employee's performance during the past year.

1. All merit increases are subject to the approval of funds for such increases by the County Council and budgetary limitations. The merit increase applies to all employees except for the Sheriff's Office.

**CACHE COUNTY**  
**ORDINANCE NO. 2025 - 11**

2. A merit increase is recommended after the performance appraisal is submitted to Personnel Management. Merit increases will be effective in January, with the performance appraisal process occurring prior to that time. Merit increases become effective at the beginning of the pay period after the approval process is completed. The Department Head, the Director of Personnel Management and the County Executive must approve the merit increase before it is forwarded to the Finance Department.
3. Should an employee be at the top of the pay range for their position, they will receive a one-time cash payment of 1% of their annual pay rate instead of a merit increase. This one-time payment will not change the base pay rate of the employee and is subject to the approval of funds for such increases by the County Council and budgetary limitations.

A market increase is considered when the wage/salary of the position is lower than what the job market would pay for comparable duties, required education/training, and years of applicable experience.
