The appropriateness of materials accessed on the internet will be determined by the library staff, within staff's discretion. However, if the material is pornographic in nature, compute privileges will be revoked immediately.

Law enforcement may be called to enforce compliance when such a request is needed.

Failure to comply with these rules and regulations may result in the loss of library privileges in addition to any appropriate legal action, including criminal prosecution.

A patron who witnesses inappropriate behavior by another library patron has the right to report it to the staff and action will be taken according to procedures and guidelines listed above.

Any questions or concerns regarding this policy or its enforcement should be directed in writing to the library director or you may request an audience at the next open library board meeting.

Collection Development Policy

The Cache County Library upholds the right of the individual to access information, even though the content may be controversial, unorthodox, or unacceptable to others. Access to the collection will not be limited or denied because of origin, race, religion, age, background, sex, sexual orientation, gender identity, or views. These factors shall also not be cause to exclude any materials, authors, artists, or other creators from the collection.

Materials for children and teenagers are intended to broaden their vision, support recreational reading, encourage and facilitate reading skills, supplement their educational needs, stimulate and widen their interests, lead to recognition and appreciation of literature and reflect the diversity of the community and our world. The reading and viewing activity of children is ultimately the responsibility of parents, who guide and oversee their own children's development. The Logan Library does not intrude on that relationship. Selection of library

materials will not be restricted by the possibility that materials could come into a child's possession.

Selection Criteria

The Library Director holds ultimate responsibility for selecting and purchasing books and other materials for the library. As a trained librarian she uses her training, knowledge, and expertise along with the following general criteria to select materials for the collection:

- Relevance and interests of the needs of the community

- Current or historical significance of the author or subject
- Relationship to the current collection's strengths and weaknesses
- Appropriateness of format to Library circulation and use
- Date of publication
- Price, availability, and Library materials budget
- Online resources are also evaluated based on accessibility and the availability of library licensing agreements.

Additionally:

- Selection of materials does not imply agreement with, or approval of, the viewpoints expressed.
- Materials are evaluated as a whole work and not by selected passages or scenes.
- Individual items which may be considered controversial or offensive by some may be selected if it will contribute to the overall variety and balance of the collection.
- Cache County Library does not offer textbooks or other school curriculum
- Staff are unable to review in entirety each item that is selected, acquired, or donated.
